## *Auction Galleries*

Dear Long Beach Bidder,

Our warmest greetings and appreciation for your participation in our May 2009 Long Beach Signature® Auction of Ancient & World Coins. Heritage Auction Galleries has been an integral part of the Long Beach Coin Expo for decades, and global material has long been an essential part of our offerings to discerning numismatists.

In Long Beach, you will have the opportunity to inspect, bid upon, and buy more than 4,400 lots. Whatever you collect, chances are that we have some exciting material for you to consider. All of these lots are now online at [HA.com/coins](http://HA.com/coins) with descriptions and full-color, enlargeable images. We invite your careful inspection, research, reflection, and bidding!

From circa 200 other consignors, we have many other wonderful coins for your consideration. In the Ancient section, we have an impressive specialized collection of Judaic coins with very rare pieces -- including several Judaea Capta issues (among them a gold Aureus), plus numerous rarities from the first Jewish Revolt and the Bar Kochba Revolt. This auction is especially strong in Latin America (including Brazil, Bolivia, Colombia, Chile, Mexico, Guatemala), with particularly extensive offerings from Russia, China, Australia, South Africa, German New Guinea, and German East Africa. Among the many interesting rarities that can be found: an awesome 1770 Nuevo Reino Pillar Dollar from Colombia (graded MS64 NGC); a gem Russian Family Rouble (PR65 NGC); a beautiful 1733 Mexican 8 Escudos (MS64 NGC); and a rare 1754 8 Escudos from Guatemala (XF45 NGC). Treasure hunters will enjoy a special selection of shipwreck items, including a heavy, 10-foot gold chain, two Atocha gold bars, four 80-pound silver bars, several 2, 4, and 8 Escudos gold cobs, and three 20+ oz. gold nuggets. Also of particular interest is a special offering of Japanese Ministry of Finance gold coins (over 250 pieces).

Images, descriptions, and prices realized from Heritage's previous numismatic auctions -- more than one and a half million numismatic lots -- are available in the Auction Archives at the Heritage website, [HA.com](http://HA.com). We wish you great success with your Long Beach bidding, and hope that you can join us there for this exciting auction and great show. You can also participate successfully through the Internet at [HA.com](http://HA.com), by telephone, mail, fax, agent, or through our HERITAGE Live! bidding system (available exclusively at [HA.com](http://HA.com), this brings you to the auction floor through the Internet).

Sincerely,

Slow biga with driver right; above, Nike flying right / Diademed head of Arethusa right; around, four dolphins. Boehringer group 3, series VIIIb, 99E [271E] (V64/R187E); SNG ANS -; Randazzo 307-9, and discussion on p. 35. Toned VF, reverse die-break.  
*Boehringer records the obverse die used to strike this coin as "unidentified" because the single specimen known to him was accessible from only a photograph of the reverse die (Renner pl. IV, 53). There were, however, three examples struck from this same reverse die in the Randazzo Hoard of 1980 (CH VII, no. 17), all of which were struck from Boehringer's obverse die V64, as is our coin. Thus, whereas Boehringer had placed this coin in series XI based on stylistic similarities with his reverse die R179, it is actually from series VIIIb, and therefore should be Boehringer 99E instead of 271E.*  
Estimate: \$800-\$1,000 Starting Bid: \$400.

Estimate: \$1,800-\$2,200 Starting Bid: \$900.

Hepworth group D3, 40 = BCD 575 (same dies); Head p. 65; SNG Copenhagen 331. Good VF, toned, obverse planchet flaws. *A very rare issue according to Hepworth, with fewer than twenty specimens known. The magistrate's name, as written on this coin, employs the use of the archaic Greek letter Fau or Digamma as the first consonant. The Digamma derives from the Phoenician letter Waw, which in turn gave rise to the Roman letter F.*

De Callatay, p. 141 (D4/R-; unlisted reverse die); AMNG I 2476; SNG Copenhagen 1093. Near XF, lustrous.

*This stater resurrects the old types of Lysimachos because of their wide recognition and acceptability in the Black Sea region and because of Mithradates' personal desire to appear to cast himself as a new Alexander defending the civilized Greek world against the Roman barbarian. The coin was probably struck to pay mercenaries during the First Mithradatic War, which ultimately ended with Mithradates' defeat but failed to extinguish the Pontic king's desire to drive the Romans out of the Greek East.*

Estimate: \$600-\$800 Starting Bid: \$300.

Meadows, "Amyntas, Side, and the Pamphylian Plain," *Agoranomia* (2006), group II, pl. 7, 4-6. Toned VF. *A close analysis of the Sidetan tetradrachms by Andrew Meadows in relation to the hoard evidence and the Sidetan inspired Galatian issues of Amyntas has led to a classification of the series into four groups struck in the name of Kleuchares. This coin belongs to group II and is dateable to the second half of the second century B.C. From the Village Coin Estate Collection.* Estimate: \$200-\$300

- 20033 Cilicia, Tarsos.** Datames. Satrap of Cilicia and Cappadocia, 384-361/0 B.C. AR stater (24 mm, 9.41 g, 6 h). Struck ca. 375 B.C. Toned VF, light porosity. *From the Village Coin Estate Collection.* Estimate: \$300-\$400 Starting Bid: \$150.

- 20036 Seleukid Kingdom.** Seleukos I. 312-281 B.C. AV stater (17 mm, 2 h). Babylon I "Imperial Workshop", ca. 311-300 B.C. Head of Athena right, wearing Corinthian helmet / Nike standing left, holding wreath and stylis; monograms in left field and beneath wing. SC 81.3; Price 3749. XF45 ICG. *An interesting early gold issue of Seleukos I struck at Babylon before the foundation of Seleukeia on the Tigris ended Babylonian coin production. Seleukos was well beloved by his Babylonian subjects whom he treated with respect. They reportedly recognized him as king well before he dared to claim the Greek title of king for himself.* Estimate: \$1,400-\$1,600 Starting Bid: \$700.

- 20037 Syria, Coele-Syria.** Chalkis ad Libanon. Herod. A.D. 41-48. AE 25 mm (15.67 g, 1 h). Regnal Year 3 (A.D. 43/4). Diademed head of Herod of Chalkis right / Greek inscription within wreath. RPC 4778; TJC 362; AJC suppl. IV, 1; Hendin 561. Near VF, brown patina. Extremely rare. *Herod of Chalkis was the grandson of the infamous Herod the Great of Judaea. Through his friendship with the Emperor Claudius, he was granted Chalkis (formerly ruled by Ituraean dynasts) as the center of a small kingdom in south Lebanon. Although he never ruled Judaea he had authority to appoint the high priest in Jerusalem. He was succeeded by Agrippa II.* Estimate: \$1,000-\$1,200 Starting Bid: \$500.

- 20038 Phoenicia, Sidon.** Uncertain king. Ca. 450-435 B.C. AR double shekel (29 mm, 23.4 g, 12 h). War galley left above waves / Slow biga left, carrying driver and bearded male figure wearing tiara; male figure in Asiatic costume behind, holding scepter and vase. Cf. Elayi and Elayi 1521-69; Betlyon 31. Toned VF, porous, flan flaw, test cut on reverse.

*Based on stylistic considerations this coin is most likely to be an issue of Tennes, the King of Sidon who revolted against the Persian King Artaxerxes III in 351 B.C. When the cause seemed lost Tennes saved himself and allowed Sidon to be burned. The reverse type of the double shekel is controversial. Traditionally it has been seen as the Persian King riding in his chariot with Tennes following on foot. However, it has been suggested recently that the figure in the chariot wearing the tiara is really a god or his image and that the scene represents a religious procession without reference to Persian hegemony over Sidon.*

Estimate: \$200-\$300

- 20039 Phoenicia, Tyre.** Mid 5th century B.C. AR 1/4 shekel (12 mm, 3.38 g, 5 h). Dolphin leaping right above waves; Phoenician inscription / Owl standing right, head facing; crook and flail behind; all within incuse square. Elayi and Lemaire series A; Betlyon 4 (half shekel); Rouvier 1779. Good VF, lightly toned. Very nice for the issue. Estimate: \$600-\$800 Starting Bid: \$300.

- 20040 Phoenicia, Tyre.** Ca. 126/5 B.C.-A.D. 65 AR shekel (29 mm, 12 h). Year 37 (90/89 B.C.) Laureate bust of Herakles-Melqart right, lion's skin knotted at neck / Eagle standing left on ship's ram, palm branch over shoulder; in left field, date above club mintmark; in right field, monograms; between legs, aleph. Cf. BMC p. 242, 129 (beth between legs). AU 50 ICG.

*Possibly the most influential coin of the late Hellenistic Near East. The autonomous Tyrian tetradrachm evolved out of a regional coinage struck under the Seleukids in imitation of earlier Ptolemaic types. Tyrian tetradrachms and fractions were the only coins acceptable at the Jerusalem Temple and circulated widely in the southern Levant. The Tyrian eagle type later served as a model for the Roman Syrian tetradrachm coinage introduced under Nero.*

Estimate: \$500-\$600 Starting Bid: \$250.

- 20041 Phoenicia, Tyre.** Ca. 126/5 B.C.-A.D. 65 AR shekel (27 mm, 14.16 g, 1 h). Year 84 (43/2 B.C.) Laureate bust of Herakles-Melqart right, lion's skin knotted at neck / Eagle standing left on ship's ram, palm branch over shoulder; in left field, date above club mintmark; in right field, monograms; between legs, aleph. RPC 4623; Rouvier 2062. Near XF, lightly toned, obverse die rust. Estimate: \$500-\$600 Starting Bid: \$250.

**20042 Ptolemaic Kingdom.** Arsinoë II. Died 270 B.C. AV mnaieon (octodrachm) (27 mm, 27.74 g, 11 h). Posthumous issue, year 30 (260 B.C.) Veiled bust of Arsinoë II right wearing stephane, scepter over shoulder; Lambda in left field / Filleted double cornucopia. Svoronos 476; Troxell, "Arsinoë's Non-Era," ANSMN 28 (1983), 44 and pl. 7, 4; SNG Copenhagen -. Good VF, small mark on cheek. Nice style portrait.  
Estimate: \$6,000-\$8,000 Starting Bid: \$3,000.

**20043 Ptolemaic Kingdom.** Period of Ptolemy VI and Ptolemy VIII, Kings of Egypt, 180-116 BC. Gold Octodrachm (27.65 g), Alexandria. Issued in the name of Arsinoë II. Veiled head of Arsinoë right, wearing diadem and stephane, with ram's horn at ear; at shoulder and behind head, lotus scepter, and in left field, K. Reverse: Double cornucopia, bound with fillet; in Greek, name of Arsinoë and title. Svoronos 1498-9; SNG Cop. 321-2; SNG Delepierre 3063 (as head of Cleopatra I); Dewing Coll. 2762. Very well centered and beautifully struck, the high relief portrait is pristine and elegant for this series. The Millennia Collection Specimen was not as nice and commanded \$27,000. Accompanied by David L. Sear authentication certificate stating "brilliant, virtually mint state".  
Estimate: \$25,000-\$30,000 Starting Bid: \$20,000.

## JUDAEA

**20044 Judaea, Yehud.** Ca. 400-333 B.C. AR hemiobol (7 mm, 0.47 g, 7 h). Head of Athena right, wearing Attic helmet reduced to olive wreath decoration (partly off flan) / Owl standing right, head facing; in upper left field, lily; Paleo-Hebrew inscription "YHD". TJC 6 (same dies); AJC I, 4SR (same dies); Hendin 426. Toned VF. Rare. *The widely recognized Athenian owl type was often imitated in the ancient Near East and elsewhere as a means of giving local currencies the air of international legitimacy enjoyed by Athenian coinage. However it is interesting that the engraver of this Yehud issue has consciously replaced the usual olive sprig and crescent found on the Athenian prototype with a lily, the emblem of Jerusalem since the Biblical period. It has been determined recently that the incuse impressions on the obverse type are the results of die clashing (see J.-P. Fontanille, "Extreme Deterioration and Damage on Yehud Coin Dies," INR 3 [2008], pp. 39-41). The marks represent the head of the owl on the reverse die.* Estimate: \$300-\$400 Starting Bid: \$150.

**20045 Judaea, Yehud.** Ca. 350-333 B.C. AR hemiobol (7 mm, 0.52 g, 7 h). Crude head of Athena right, wearing Attic helmet / Owl standing right, head facing; in upper left field, olive sprig and crescent; Paleo-Hebrew inscription "YHD". TJC 4 (same dies); AJC I, 2; Hendin 426. Toned VF. *This coin illustrates the propensity of the Yehud mint to produce coins with the same die pairs until they became completely unusable. What appears to be a beard on the obverse portrait is in fact damage to the die from extended use. An very nice example of a later die state not included in Jean-Philippe Fontanille's sequence of die degradation in INR 3 (2008), p. 31.* Estimate: \$300-\$400 Starting Bid: \$150.

**20046 Judaea, Yehud.** Ca. 350-333 B.C. AR hemiobol (7 mm, .21 g, 10 h). Yehezqiyah, governor. Crude facing head / Owl standing right, head facing; Paleo-Hebrew inscription "Yehezqiyah the Governor". TJC 22b; AJC I 116; Hendin 430. Good VF, toned. Exceptional for the issue. *One of the few Yehud issues to name a living individual. He may be the same person as the Hezekiah mentioned as high priest under Ptolemy I. If they are indeed the same it may push the date for these coins closer to the end of the fourth century B.C.* Estimate: \$800-\$1,000 Starting Bid: \$400.

**20047 Judaea, Herodian Kingdom.** Herod Antipas. 4 B.C.E.-40 C.E. AE 1/2 unit (20 mm, 7.29 g, 12 h). Tiberias, year 24 (20/1 C.E.). Reed; in right field, date / Greek inscription within wreath. RPC 4919; TJC 76; AJC II 2; Hendin 510. VF, brown and green patina, a little rough but clear. This issue celebrates Antipas' foundation of Tiberias in Galilee. Estimate: \$200-\$300

**20048 Judaea, Herodian Kingdom.** Herod Philip. 4 B.C.E.-34 C.E. AE 17 mm (5.68 g, 12 h). Caesarea Panias, year 34 (30/1 C.E.). Bare head of Tiberius right; laurel branch before / Tetrastyle temple (the Augusteum) with pellet in pediment. RPC 4948; TJC 106 corr. (lacking EPI); Hendin 538. Near VF, brown surfaces. Estimate: \$300-\$400 Starting Bid: \$150.

**20049 Judaea, Herodian Kingdom.** Herod Philip. 4 B.C.E.-34 C.E. AE 18 mm (5.54 g, 12 h). Caesarea Panias, year 37 (33/4 C.E.). Bare head of Tiberius right; laurel branch before / Tetrastyle temple (the Augusteum) with pellet in pediment. RPC 4952; TJC 109; Hendin 542. Fine, green patina with earthen deposits, obverse off center. Estimate: \$200-\$300

**20050 Judaea, Herodian Kingdom.** Agrippa I. 37-44 C.E. AE 24 mm (14.38 g, 12 h). Caesarea Maritima, year 7 (A.D. 42/3). Facade of distyle temple; within two confronted figures holding bowls; between standing figure holding uncertain object and figure kneeling left, below. RPC 4983; TJC 121; Hendin 554. Fair/near Fine, rough coppery brown surfaces. Very rare and priced in Hendin from \$2500 to \$6000. *This type seems to represent the worship of a cult statue, probably of the city Tyche with a marine deity below. Unfortunately, the type is never clear enough on surviving examples to be absolutely sure of what is being depicted.* Estimate: \$500-\$600 Starting Bid: \$250.

**20051 Judaea, Herodian Kingdom.** Agrippa II. 56-95 C.E. AE 24 mm (12.35 g, 12 h). Caesarea Paneas, 67/8 C.E. Laureate head of Nero to right; to right, lituus / Legend in five lines within wreath. RPC 4988; TJC 129; Hendin 581. VF, attractive light brown patina. Estimate: \$250-\$350

**20052 Judaea, Herodian Kingdom.** Agrippa II. 56-95 C.E. AE 14 mm (1.93 g, 9 h). Caesarea Paneas, years 11/6 (65/6 or 67/8 C.E.). Turreted bust of Tyche right / Double cornucopias with caduceus rising between. TJC 132; AJC II 5; Hendin 584. Fair/Fine, rough brown surfaces. Extremely rare. Estimate: \$400-\$500 Starting Bid: \$200.

**20053 Judaea, Herodian Kingdom.** Agrippa II. 56-95 C.E. AE 19 mm (5.54 g, 12 h). Caesarea Paneas, year 14 (73/4 or 74/5 C.E.). Laureate bust of Domitian right / Nike standing right, inscribing shield resting on knee. RPC 2251; TJC 139; AJC II 11; Hendin 592. Good VF, brown patina. Estimate: \$250-\$350

**20054 Judaea, Herodian Kingdom.** Agrippa II. 56-95 C.E. AE 25 mm (12.01 g, 6 h). Caesarea Maritima or Rome(?), year 25 (84/5 C.E.). Laureate bust of Domitian right / Square altar. RPC 2266; TJC 162; AJC 26; Hendin 606. Good VF, brown patina, very high relief. Exceptional for the issue. *The mint attribution for this coin and several related series is controversial. The quality of the engraving, Roman iconography, and the use of Latin legends (but Greek dates!) has led some to suggest that they were produced in Rome for use in the Herodian kingdom. On the other hand, it has been countered that the fabric is similar to that of issues attributed to Caesarea Maritima. The true identity of the mint will remain somewhat mysterious unless new information is discovered.* Estimate: \$800-\$1,000 Starting Bid: \$400.

**20055 Judaea, Herodian Kingdom.** Agrippa II. 56-95 C.E. AE 26 mm (10.58 g, 12 h). Caesarea Paneas, year 26 (85/6 C.E.). **20056 Judaea. First Jewish War.** 66-70 C.E. AR shekel (23 mm, 13.91 g, 11 h). Jerusalem, year 1 (66/7 C.E.). Chalice; date above; Paleo-Hebrew inscription "Shekel of Israel" / Three pomegranates on stem; Paleo-Hebrew inscription "Jerusalem the Holy". TJC 187; AJC II 3; Hendin 655; Kadman 2; Bromberg I 59 (same dies). Good VF, toned.

*Despite the conflicting factions within the rebel Jewish leadership, they all agreed on the production of an autonomous Jewish coinage free of pagan images. The chalice is thought to represent the Omer Cup used in the Jerusalem Temple, while the pomegranate was a longstanding symbol of the Jewish high priesthood.*

Estimate: \$3,000-\$3,500 Starting Bid: \$1,500.

**20057 Judaea. First Jewish War.** 66-70 C.E. AR shekel (21 mm, 13.53 g, 11 h). Jerusalem, year 1 (66/7 C.E.). Chalice; date above; Paleo-Hebrew inscription "Shekel of Israel" / Three pomegranates on stem; Paleo-Hebrew inscription "Jerusalem the Holy". TJC 187; AJC II 3; Hendin 655; Kadman 2; Bromberg I 59 (same obv. die). Good VF, toned.

*An early issue of the Jewish rebels featuring types related to the Jerusalem Temple and its high priests. The propaganda of Jewish religious and political autonomy is enhanced by the use of archaic paleo-Hebrew legends.*

Estimate: \$2,500-\$3,000 Starting Bid: \$1,250.

**20058 Judaea. First Jewish War.** 66-70 C.E. AR 1/2 shekel (20 mm, 6.81 g, 11 h). Jerusalem, year 1 (66/7 C.E.). Estimate: \$2,000-\$2,500 Starting Bid: \$1,000.

**20059 Judaea. First Jewish War.** 66-70 C.E. AR shekel (21 mm, 13.23 g, 12 h). Jerusalem, year 2 (67/8 C.E.). Chalice; date above; Paleo-Hebrew inscription "Shekel of Israel" / Three pomegranates on stem; Paleo-Hebrew inscription "Jerusalem the Holy". TJC 193; AJC II 8; Hendin 659. Toned VF, porous.

Chalice; date above; Paleo-Hebrew inscription "Half Shekel" / Three pomegranates on stem; Paleo-Hebrew inscription "Jerusalem the Holy". TJC 203a; AJC II 19; Hendin 663. Toned VF, minor roughness in fields.  
Estimate: \$1,400-\$1,600 Starting Bid: \$700.

**20062 Judaea. First Jewish War.** 66-70 C.E. AR shekel (20 mm, 13.21 g, 12 h). Jerusalem, year 4 (69/70 C.E.). Chalice; date above; Paleo-Hebrew inscription "Shekel of Israel" / Three pomegranates on stem; Paleo-Hebrew inscription "Jerusalem the Holy". TJC 207; AJC II 23; Hendin 665. VF, light surface corrosion. Very rare. *A rare issue struck during the disastrous last full year of the Jewish Revolt which saw the long and drawn out siege of Jerusalem by the Roman army. During the siege many of the city's inhabitants suffered from starvation and disease, while the factions of the rebel leadership began to fight amongst themselves. Later in 70 C.E. the city was stormed and destroyed by the Romans under Titus.* Estimate: \$6,000-\$8,000 Starting Bid: \$3,000.

**20063 Judaea. First Jewish War.** 66-70 C.E. AE 1/2 shekel (26 mm, 12 g, 12 h). Jerusalem, year 4 (69/70 C.E.). Seven-branched date palm tree flanked by baskets; Paleo-Hebrew inscription "For the Redemption of Zion" / Ethrog (citron) flanked by lulavim; Paleo-Hebrew inscription "Year Four, Half". TJC 211; AJC II 25; Hendin 668. VF, brown patina with sandy deposits. Well centered and struck. Very rare. *The types of this coin are all related to the Jewish harvest thanksgiving festival of Sukkot, also called the Feast of Tabernacles in which the devout lived outside in tents and used ritual bundles (lulavim) of myrtle, palm, and willow branches. However, the thankfulness of the people of Jerusalem was probably muted at this time because of the increasingly successful Roman siege that caused widespread starvation in the city. The use of bronze for an apparent shekel denomination illustrates the severe difficulties in Jerusalem.* Estimate: \$3,000-\$4,000 Starting Bid: \$1,500.

**20064 Judaea. First Jewish War.** 66-70 C.E. AE 1/4 shekel (20 mm, 8.71 g, 12 h). Jerusalem, year 4 (69/70 C.E.). Ethrog (citron); Paleo-Hebrew inscription "For the Redemption of Zion" / Two lulavim; Paleo-Hebrew inscription "Year Four, Quarter". TJC 213; AJC II 29; Hendin 669. VF, brown patina with sandy deposits. Well centered and struck. Very rare.

*This issue continues the Sukkot related iconography of the bronze half shekel (see the preceding lot) by dividing the lulavim and ethrog elements of the reverse between obverse and reverse of the quarter shekel.*

Estimate: \$500-\$600 Starting Bid: \$250.

**20065 Judaea. Bar Kochba Revolt.** 132-135 C.E. AE 29 mm (12.14 g, 3 h). Year 1 (132/3 C.E.). Paleo-Hebrew inscription "Jerusalem" within wreath / Two-handled amphora; Paleo-Hebrew inscription "Year one of the redemption of Israel". Mildenberg 13 (O3/R9); TJC 221 (same obv. die as illus.); Hendin 676. VF, brown patina, edge corrosion and light smoothing on obverse. Very rare.

*Interesting anonymous early Jewish rebel issue referring only to Jerusalem and the desire to redeem Judaea from Roman occupation. Later issues of year one name Shimon bar Kochba as the messianic leader of the revolt. This type was evidently struck before Shimon felt comfortable enough in his power to identify himself as the true authority behind the coinage.*

Estimate: \$8,000-\$10,000 Starting Bid: \$4,000.

- 20066 Judaea. Bar Kochba Revolt.** 132-135 C.E. AE 25 mm (15.92 g, 6 h). Year 1 (132/3 C.E.). Mildenberg 23 (O1/R4); TJC 223; AJC II 6; Hendin 680. VF, green and patina, light deposits. Estimate: \$500-\$600 Starting Bid: \$250.

- 20069 Judaea. Bar Kochba Revolt.** 132-135 C.E. AE 17 mm (7.24 g, 6 h). Year 1 (132/3 C.E.). Mildenberg 147 (O1/R1); TJC 225; AJC II 266; cf. Hendin 681. Good VF, dark green patina with sandy green deposits. Rare variety with retrograde obverse legend.

*An interesting early issue of the Bar Kochba revolt naming Eleazar the Priest, who served as the religious backing for Shimon bar Kochba's messianic bid for power in Judaea.*  
Estimate: \$400-\$500 Starting Bid: \$200.

- 20070 Judaea. Bar Kochba Revolt.** 132-135 C.E. AE 17 mm (6.86 g, 6 h). Year 1 (132/3 C.E.). Mildenberg 150 (O1/R4); TJC 224a; AJC II 266; Hendin 681. VF, mottled red and green patina. Estimate: \$250-\$350

- 20071 Judaea. Bar Kochba Revolt.** 132-135 C.E. AR zuz (19 mm, 3.34 g, 6 h). Years 1 and 2 (132/3 and 133/4 C.E.). Bunch of grapes on vine; Paleo-Hebrew inscription "Year one of the Redemption of Israel" / Chelys; Paleo-Hebrew inscription "Year two of the Freedom of Israel". Mildenberg 9 (O1/R7); TJC 236; AJC II 19; Hendin 684. Good VF, lightly toned, overstruck on a denarius of Trajan(?). Very rare hybrid issue - only six specimens cited by Mildenberg. *A very rare mule using reverse dies of the first and second years of the bloody Bar Kochba Revolt against the Romans in Judaea. This unusual die combination and the standard use of Roman denarii as flans suggests the great haste of Bar Kochba's minters in their effort to produce an autonomous Jewish coinage.*  
Estimate: \$4,000-\$5,000 Starting Bid: \$2,000.

**20072 Judaea. Bar Kochba Revolt.** 132-135 C.E. AR zuz (18 mm, 3.25 g, 12 h). Years 1 and 2 (132/3 and 133/4 C.E.). *A rare early issue of the Bar Kochba Revolt naming Simon bar Kochba as the leader of the rebellion. The amphora type looks back to the bronze iconography of the First Jewish Revolt.*  
Estimate: \$3,000-\$4,000 Starting Bid: \$1,500.

- 20074 Judaea. Bar Kochba Revolt.** 132-135 C.E. AR sela (25 mm, 13.53 g, 1 h). Year 2 (133/4 C.E.). Mildenberg 17 (O4/R11); TJC 230; AJC II 13a; Hendin 688. Toned VF. *This quintessential coin type of the Bar Kochba series bears the only numismatic representation of the Jerusalem Temple although it is unclear whether it is meant to depict the Herodian temple destroyed by the Romans in 70 C.E. or a new temple longed for by the messianic Shimon bar Kochba and his followers. The reverse looks back to the Sukkot related types of the First Revolt.* Estimate: \$1,800-\$2,200 Starting Bid: \$900.

Mildenberg 85 (O12/R44'); TJC 267; AJC II 52; Hendin 711. Toned VF, minor obverse die shift, dark deposits.  
*Struck in the final disastrous year of the Bar Kochba Revolt, this sela (or tetradrachm) is notable for the inscription referring to the freedom of Jerusalem rather than all of Israel. This may possibly be taken as an indicator of the lowered expectations of the losing rebels as the final Roman onslaught loomed. The star may not refer to Shimon's messianic title ben Kosiba ("Son of the Star").*  
Estimate: \$1,500-\$1,800 Starting Bid: \$750.

**20081 Judaea. Bar Kochba Revolt.** 132-135 C.E. AR sela (26 mm, 14.1 g, 11 h). Undated (attributed to year 3, 134/5 C.E.). **20086 Phrygia, Ancyra.** Philip I. A.D. 244-249. AE 35 (16.63 g, 12 h). P. Aru. Zoilos as the First Archon of Ankyra. Laureate, draped and cuirassed bust of Philip I right seen from behind / Hephaistos seated right, holding hammer and tongs, and Cyclops standing left, holding hammer; between them anvil; behind anvil, Athena standing left, raising arm and holding shield. J. Nollé, "Athena in der Schmiede des Hephaistos," *JNG XLV* (1995), abb. 1 = U. Werz, "Zu einer unbekannten Praegedarstellung," *SM 44*, 175/176 (December 1994), 1 = Leu 50, 350. XF, wonderful dark green patina, the reverse with a reddish sandy wash. Extremely rare with only three specimens known, this being the only one not in a museum collection, and an amazing mythological reverse taken directly from Homer's *Iliad*.

*This dramatic large diameter issue of Phrygian Ancyra is extremely rare today. In 1990, an example with the same reverse die was sold by Leu, and at the time it was believed by the cataloguer to be unique. It was purchased at the sale either by or on behalf of the Winterthur collection (inv. G6997), where it now resides, although a further specimen is in the collection of the American Numismatic Society (inv. 1974.226.101). Our coin represents the third known example of this remarkable issue and, seemingly, the only one available to the public.*

*The obverse carries a superb military portrait of Philip I 'the Arab' while the reverse depicts a scene derived from Homer's *Iliad* (Book 18). The lame blacksmith god, Hephaistos is seated on the left and a Cyclops on the right, and together they hammer an object held by tongs on the anvil between them while Athena looks on from behind and holds a shield. They are not just forging any new trinket for the Olympian gods, but rather a set of new weapons and armor ordered to replace the equipment lost by the Achaean hero Achilles. While sulking at the abuses of Agamemnon, Achilles' friend Patroklos had donned his armor and joined the battle around the walls of Troy, where he was slain by the Trojan prince, Hektor. The armor and weapons were claimed by Hektor as booty, thereby leaving Achilles unable to avenge the death of Patroklos and bring Troy closer to its long-prophesied destruction. Seeing her son's plight, Thetis begged the Olympian gods to provide Achilles with new weapons and armor. This request was granted and Hephaistos forged new equipment for Achilles. Although Homer does not explicitly mention the presence of Athena at the forge of Hephaistos, she appears here as the patron goddess of Achilles and of warfare. It is unclear whether the shield carried by Athena on the coin is intended to represent her own or perhaps more likely, the fabulous shield made for Achilles, which was decorated with scenes drawn from all facets of ancient daily life. The scene is probably derived from a sculptural model, as a first century frieze depicting a similar scene is known from Rome. In the frieze the work of Hephaistos is overseen by both Athena and Thetis.*

*According to the reverse inscription, the coin was issued during the second tenure of P. Aru. Zoilos as the First Archon of Ancyra. Few details are known about this individual other than that he was a prominent local figure who held the highest civic office twice in the mid third century. He is known to have signed several other coin series of Ancyra during his second archonate under Philip I. Estimate: \$4,000-\$5,000 Starting Bid: \$2,000.*

VF, dark green patina with coppery areas showing on the highpoints.

*The important first issue of Aelia Capitolina commemorating the founding of the pagan city on the ruined site of Jerusalem. Controversy still swirls as to whether the foundation of the city sparked the outrage that developed into the Bar Kochba Revolt or whether it was founded after the war as a means of revitalizing the devastated region.*

Estimate: \$300-\$400 Starting Bid: \$150.

- 20177 Artuqids of Mardin.** Najam al-Din Alpi. 547-572/1152-1176. AE dirham (33 mm, 17.74 g, 12 h). Two diademed and draped male busts facing one another; dot between Arabic inscription "Najam al-Din / Malik Diyarbakr" / Byzantine emperor (on left) standing facing, crowned by the Virgin (on right) standing facing. Arabic inscription "Abu al-Muzaffar Alpi bin Timurtash bin Il-Ghazi bin Artuq". S/S/ 28; Poole 31; BMC III 372-4. Good VF, dark brown-green patina with earthen highlights. A well centered and nicely struck specimen.  
*This coin illustrates the wonderfully eclectic reuse of ancient and roughly contemporary foreign coin iconography that typifies many Turkoman issues of the twelfth and thirteenth centuries. Here, the engraver has taken a portrait derived from the coins of the Hellenistic Greek Seleucid monarch, Antiochus VII (138-129 B.C.) and doubled it, apparently to represent Gemini of the Zodiac. A single Antiochus VII portrait type occurs on other issues of Najam al-Din Alpi. For the reverse, the engraver has imitated a type found on Byzantine gold histamena nomisma of the eleventh century. Such usage of ancient and foreign coin types illustrates the existence of coin collections in Mardin from which the engravers could draw inspiration. It has been suggested that these might have belonged to local Nestorian Christian religious communities.*  
Estimate: \$200-\$300

**20339 Joao V gold 6400 Reis 1741-R**, KM149, AU58 NGC, a superior and sharp specimen of this type with no apparent circulation. Faint hairlines on the left of the bust may have prevented this piece from receiving a higher grade. Most of Joao V 6400 Reis that appear in the market are the later dates of 1747-1750, all earlier dates are scarce.  
Estimate: \$3,500-\$5,000 Starting Bid: \$1,750.

- 20340 Joao V gold 6400 Reis 1746-R, KM149, choice AU, some faint hairlines on the reverse. Sharp details and wide rims for this scarce type and date.**

- 20341 Joao V gold 1750-R, KM149, lightly toned VF-XF, slightly weak on the bust and with a noticeable scratch in the right obverse field.**  
Estimate: \$600-\$750 Starting Bid: \$300.

- 20342 Joao V gold 6400 Reis 1750-R, KM149, Unc, from the patina on the coin, we assume it came from the "Clive of India" treasure. A very sharp strike with great details. Last year of issue.**

- 20343 Joao V gold 10000 Reis 1726-M, KM116, XF45 NGC, a pleasant piece for this scarce issue from the Minas mint.**

## A Rare 12800 Reis from the Bahia Mint

**20344 Joao V gold 12800 Reis *Dobra* 1730-B, KM141, second shield type, Russo #101, choice XF.** Great details and sharp strike especially for a Bahia Mint issue. Very strong “B” and date, light circulation on the king’s hair. Tower and mini-shields are complete (!) on the reverse. Some lamination on the reverse to the left of the crown and a tiny scratch to the right. Rims are perfect with some of the original “rope” rim still visible.

Taking into account the 12800 Reis that were struck in mainland Portugal, *Dobras* from the Bahia Mint are by far the rarest of this type because gold was scarce in that region of Brazil. Most of the 12800 Reis were struck at the Minas mint, and, to a lesser extent, at the Rio mint. Adding to its rarity, the dies and striking were much cruder in Bahia making choice and defect-free coins such as this one even more difficult to find. We expect lively competition for this piece!

Estimate: \$25,000-\$30,000 Starting Bid: \$12,500.

**20345 Joao V gold 12800 Reis Dobra 1729-R, KM148, choice AU**, an outstanding and rare specimen from the Rio mint. Hair is sharp and complete except for minimal circulation around the ear. Very lightly cleaned long ago and mostly retoned. Dobras, a short-lived denomination, were struck from 1727 to 1733 primarily at the Minas Gerais mint where gold was abundant. Coins of this type that were struck at the Rio (R) and Bahia (B) mint are much rarer. Estimate: \$7,000-\$8,000 Starting Bid: \$3,500.

**20346 Joao V gold 12800 Reis Dobra 1731-R, KM148, AU**, a second piece from the Rio mint, great overall details with very few faint hairlines. Round shield type with interesting die crack across the top mini-shield on the reverse. Estimate: \$6,500-\$8,000 Starting Bid: \$3,250.

**20347 Joao V gold 12800 Reis Dobra 1727-M**, KM139, MS62 NGC, a superior example of this type. The *Dobra* was struck at the Minas Gerais mint in Brazil from 1727 to 1733. It was not until the latter part of 1727, when the minting of the *Dobrao* (or 20000 Reis) was stopped, that the striking of 12800 Reis started and as a result few coins were struck with this date. With a subdued patina and near-perfect bust, this coin will please the most demanding collector. Estimate: \$9,000-\$11,000 Starting Bid: \$4,500.

**20348 Joao V gold 12800 Reis Dobra 1728-M**, KM139, AU58 NGC, second "modern" bust. Lightest circulation and clean fields for this piece. Most of the 1728 *Dobras* are 1727 overdates since the initial die was used for just a few months in 1727 and subsequently changed to "1728". This piece features the bust of Joao V which would be used in the rest of the 12800 Reis strikes until 1733. A very choice coin for the second rarest date of the issue. Estimate: \$7,000-\$8,500 Starting Bid: \$3,500.

**20349 Joao V gold 12800 Reis Dobra 1731-M, KM139, MS62 NGC**, lustrous and bright, incredible hair detail and surfaces. Full strike on both sides. Very rare this nice.  
Estimate: \$6,500-\$8,000 Starting Bid: \$3,250.

**20350 Joao V gold 12800 Reis Dobra 1732-M, KM139, AU55 NGC**, lustrous and sharp for the grade. Flawless reverse with complete mini-shields and towers. A choice specimen and seemingly undergraded.  
Estimate: \$6,000-\$7,500 Starting Bid: \$3,000.

**20351 Joao V gold 12800 Reis Dobra 1733-M, KM139, AU58 NGC**, very sharp bust, date and rim for this coin. As the previous lot, the reverse is mint state with all details extremely sharp. Very faint hairlines to the left of the bust may have prevented this coin from a MS grade. Scarcer last year of issue.  
Estimate: \$6,000-\$7,500 Starting Bid: \$3,000.

**20352 Joao V gold 20000 Reis Dobrao 1725-M, KM117, Friedberg 33, AU55 NGC**, pleasant overall surfaces for this lightly circulated specimen.  
Estimate: \$5,000-\$6,500 Starting Bid: \$2,500.

**20353** Joao V gold 20000 Reis *Dobrao* 1726-M, KM117, Friedberg 33, AU58 NGC, plenty of original luster and sharp details for this coin. Faint adjustment marks on both sides. Reverse is mint state. Estimate: \$5,500-\$7,000 Starting Bid: \$2,750.

**20354** Joao V gold 20000 Reis *Dobrao* 1727-M, KM117, Friedberg 33, MS62 NGC, the second rarest date of the *Dobrao* series. Old and deep orange patina with outstanding details. Any coin of this type is rare in mint state condition, but the 1727 is even rarer. Estimate: \$8,000-\$10,000 Starting Bid: \$4,000.

**20355 Joao V gold 20000 Reis Dobrao 1727-M**, KM117, Friedberg 33, AU details with a small under the date. Partial original mint luster with faint adjustment marks across the reverse.  
Estimate: \$4,000-\$5,000 Starting Bid: \$2,000.

**20356 Jose I 300 Reis 1752B**, KM178, XF40 NGC. "J" series. This transitional type is very scarce, especially struck at the Bahia mint. Deep gray patina and very attractive.  
Estimate: \$400-\$600 Starting Bid: \$200.

**20357 Jose I 600 Reis 1758B**, KM179, VF35 NGC, another coin from the "J" series struck at the Bahia mint. Very pleasant toning with evenly worn fields.  
Estimate: \$350-\$500 Starting Bid: \$175.

**20358 Jose I gold 1000 Reis 1771 (L)**, KM198, MS63 NGC, incredibly sharp for this small size coin. Crown and mini-shields are complete! Struck at the mint in Lisbon for circulation in Brazil.  
Estimate: \$700-\$900 Starting Bid: \$350.

**20359 Jose I gold 2000 Reis 1771 (L)**, KM182.2, AU55 NGC, Large size type, "Josephus". Some uneven deep orange toning on this above average specimen for the type.  
Estimate: \$550-\$700 Starting Bid: \$275.

**20360 Jose I gold 4000 Reis 1753**, KM171.2, AU details, ex-jewelry.  
Estimate: \$300-\$400 Starting Bid: \$150.

**20361 Jose I gold 6400 Reis 1767-R**, KM172.2, XF details, improperly cleaned. Small cut on the rim at 2 o'clock.  
Estimate: \$400-\$600 Starting Bid: \$200.

**20362 Jose I gold 6400 Reis 1768-B**, KM172.1, AU58 NGC, great details on the King's hair and eyes, lustrous around the legends. No circulation observed on the reverse. Scarce Bahia mint issue.  
Estimate: \$1,200-\$1,500 Starting Bid: \$600.

**20363 Jose I gold 6400 Reis 1773R**, KM172.2, AU50 NGC, a nice lustrous example with well-struck details.  
Estimate: \$800-\$1,000 Starting Bid: \$750.

**20364 Maria I & Pedro III gold 4 Escudos 1783-R**, KM281, sharp AU, flatly struck on the obverse legends at 3 o'clock.  
Estimate: \$800-\$1,000 Starting Bid: \$400.

**20365 Maria I gold 6400 Reis 1796-B**, KM226.2, MS62 NGC, a superb example of this popular series. For every ten coins struck at the mint in Rio de Janeiro, one was struck at the Bahia counterpart. Dies at the Bahia mint were much cruder and mint state pieces are very rare to find. This coin has plenty of original luster in the peripheral areas and overall great eye appeal.  
Estimate: \$1,400-\$1,800 Starting Bid: \$700.

**20366 Maria I gold 6400 Reis 1803-R**, KM226.1, AU58 NGC, full mint brilliance with light original toning, a very nice example.  
Estimate: \$850-\$1,000 Starting Bid: \$850.

**20367 Joao VI 640 Reis 1822-R**, KM325.2, toned AU, boldly struck features, very scarce date.  
Estimate: \$600-\$800 Starting Bid: \$300.

**20368 Joao VI gold 4000 Reis 1802(B)**, KM235.1, AU details, lightly cleaned. Struck at the Bahia mint in northeast Brazil. Scarce  
Estimate: \$750-\$900 Starting Bid: \$375.

**20369 Joao VI gold 4000 Reis 1807(B)**, KM235.1, MS61 NGC, most of original luster still there. Very rare this nice. 4000 Reis struck at the Bahia mint are rarer than Rio's and even more so in mint state.  
Estimate: \$1,000-\$1,200 Starting Bid: \$500.

**20370 Cuiaba. 960 Reis (1821), 960 over C counterstamp, KM352, struck on a Bolivia 8 Reales 1804 PJ-PTS, AU58 NGC.** This is the finest 960 Reis Cuiaba counterstamp we have come across. The stamp itself is absolutely mint state with full round strikes on both sides. The patina is old and even on both host coin and the stamp. The village of Cuiaba in the Brazilian state of *Mato Grosso* was authorized in 1821 to counterstamp Hispanic 8 Reales in order to raise their value from 750 Reis to 960 Reis. This was a pretty remote area of Brazil at the time and very few coins made it to Cuiaba, hence these counterstamps are rarely seen.  
Estimate: \$3,500-\$4,500 Starting Bid: \$1,750.

**20371 Pedro I 960 Reis 1824-B, KM368.2, AU, cleaned long ago and retoned.** Sharp details with plenty of visibility of the 1821 Zacatecas 8 Reales which served as the base coin for this scarce Bahia issue.  
Estimate: \$350-\$450 Starting Bid: \$175.

**20372 Pedro II 400 Reis Cruzado 1834, KM455, MS62 NGC,** very sharp tulips, beautiful chocolate brown patina. Rare this nice.  
Estimate: \$400-\$500 Starting Bid: \$200.

**20373 Pedro II 800 Reis 1835, KM456, choice AU, toned.** Deep brownish gray patina with near flawless tulips on the obverse. Tiny nick on the reverse to the left of the crown. The 800 Reis is the rarest denomination in the *Cruzado* series.  
Estimate: \$700-\$900 Starting Bid: \$350.

**20374 Pedro II 2000 Reis 1867, KM466, toned AU with considerable mint luster, tiny rim bruise.** Very scarce date.  
Estimate: \$600-\$800 Starting Bid: \$300.

**20375 Pedro II gold 10000 Reis 1867, KM467, MS64 NGC,** a extra choice mint state coin with very sharp details, flawless beard and hair. A tiny cut on Pedro's neck prevented an ever higher grade. Condition Rarity.  
Estimate: \$600-\$800 Starting Bid: \$300.

**20376 Pedro II gold 10000 Reis 1883**, KM467, MS64 NGC, better date, near flawless details for this choice mint state piece.  
Estimate: \$650-\$850 Starting Bid: \$325.

**20377 Pedro II gold 10000 Reis 1883**, KM467, MS65 NGC. Difficult to imagine a Brazilian 10000 Reis better than this one. A true gem. Sometimes the holder speaks loudly! 1883 is also a scarcer date.  
Estimate: \$800-\$1,000 Starting Bid: \$400.

**20378 Pedro II gold 16000 Reis 1847**, KM457, MS62 NGC, bright luster and exceptional grade for this scarce issue. Full strike on the bust, including all the details of the military uniform. Misabeled as 10000 Reis.  
Estimate: \$2,500-\$3,500 Starting Bid: \$1,250.

**20379 Pedro II gold 20000 Reis 1850**, KM461, AU58 NGC, bright and very appealing. Reverse in mint state. Scarcer date for this better type of the Brazilian Empire.  
Estimate: \$800-\$1,000 Starting Bid: \$400.

**20380 Pedro II gold 20000 Reis 1851**, KM461, AU58 NGC, a little "baggy" but still pretty appealing for the issue.  
Estimate: \$600-\$800 Starting Bid: \$300.

**20381 Pedro II gold 20000 Reis 1851**, KM463, MS61 NGC, some original luster mainly around the legends. Common coin in scarce mint state grade.  
Estimate: \$600-\$800 Starting Bid: \$300.

**20382 Pedro II gold 20000 Reis 1853**, KM468, AU58 NGC, good luster, near full beard and hair. First day of issue for this type.  
Estimate: \$600-\$800 Starting Bid: \$300.

Estimate: \$500-\$700 Starting Bid: \$250.

**20384 Pedro II gold 20000 Reis 1856**, KM468, AU58 NGC, even fields and good eye appeal. Above average for the issue.  
Estimate: \$600-\$800 Starting Bid: \$300.

**20385 Pedro II gold 20000 Reis 1857**, KM468, AU58 NGC, full beard and sharp overall details. Few bag marks. Slightly scarcer date.  
Estimate: \$600-\$800 Starting Bid: \$300.

**20386 Pedro II gold 20000 Reis 1889, KM468, cleaned AU. Last year of issue.**  
Estimate: \$500-\$700 Starting Bid: \$250.

**20387 Republic 1000 Reis 1900, KM500, MS65 NGC, a choice toned original example, very scarce in this designation. Part of the popular Discovery Set.**  
Estimate: \$300-\$400 Starting Bid: \$150.

**20388 Republic 4000 Reis 1900 16 Rays, KM502.1, toned AU-UNC, quite attractive, slightly porous area in the right obverse field.**  
Estimate: \$450-\$550 Starting Bid: \$225.

**20389 Republic silver Discovery Set 1900, KM499, 500, 501, 502.2, 400 Reis, 1000 Reis, 2000 Reis, and 4000 Reis, all lightly cleaned AU's. 4000 Reis is the scarcer 20 Rays variety.**

**20390 Republic copper-nickel Pattern 400 Reis 1914, KM515, UNC, faint hairlines in the fields and small dark spots on the obverse. Some controversy still exists as to whether this scarce type is a pattern or a regular issue, but it has always been sought after by mainstream Brazilian and world collectors.**  
Estimate: \$150-\$225 Starting Bid: \$125.

## A Majestic Colombian 1770 Pillar Dollar

**20694 Carlos III Pillar 8 Reales 1770NR-VJ, KM39** (Date Unlisted), Calico 1000, Cayon Unlisted, MS64 NGC. Few world crowns demand so much numismatic interest as the *Columnarios* or Pillar Dollars that were struck from 1732 to 1773 in numerous Spanish mint houses throughout the Americas. By the second half of the 18th century, the Pillar Dollar had become a true “world currency” being widely used in Europe, the United States (where it was legal tender), and the Far East. Both old and new worlds are depicted on the coin’s obverse and are crowned between the two pillars of Hercules with legends “VTRAQUE VNUM” (both are one). On the reverse, the arms of Castille and Leon are displayed under the Spanish crown with the denomination “8” to the right, assayer initials to the left.

Of all the Pillar Dollars minted, the pieces struck in Santa Fe de Bogota, Nueva Granada (today Colombia) at the Nuevo Reino mint are perhaps the most desired among collectors and numismatists worldwide. The coins were only struck in 1759, 1762 and 1770—all are extremely rare with very few specimens known. The 1770 Nuevo Reino Pillar Dollar was unknown to exist until about 3 years ago when exactly fourteen coins were found in the old foundations of the *Nuestra Senora del Pilar* church in Bogota. This church, which was also a convent and school for girls, existed from the 1770’s until 1948 when it was set on fire during major riots in Bogota. The church was eventually torn down, and the area was turned into a parking lot. A few years ago, construction began on a new building. When crews dug up the parking lot, they found a small group of coins in the old church foundation—including the fourteen 1770 Nuevo Reino Pillars.

Spanish tradition says that when the first foundation stone is laid, it is blessed and in specific cases, the foundation is carved, engraved and coins are placed inside. Inside this stone, over 100 coins were found, most were cob 2 Reales, a few gold cobs, and numerous circulated Pillars from Mexico. Since there are no previous records of 1770 Nuevo Reino Pillars, it is likely that these pieces were struck *specifically* for the ceremonies at the *Nuestra Senora del Pilar* Church.

All of the coins found have been sold to private collectors and museums in Colombia and Spain. The original purchaser of the coins kept the two highest quality coins for himself, and the piece we present here is one of them. With an incredibly strong and sharp strike, most, if not all of the original luster is remaining. This coin will command lively competition, and once it is done, the Nueva Reino 1770 8 Reales will find a new home and become the centerpiece of a very advanced numismatic cabinet. Estimate: \$60,000-\$80,000 Starting Bid: \$30,000.

## An Extremely Rare 8 Escudos of Ferninand VI

**21307 Ferdinand VI gold 8 Escudos 1754G-J, KM7, Calico 551, XF45 NGC.** Possibly the finest known of this very rare issue. This coin is at least a grade higher than the Norweb piece that sold in 1985. And, although it is graded the same as the Eliasberg piece (which realized \$46,000 in April 2005) it undoubtedly has better eye appeal with exceptional coppery-gold toning. There is a tiny bit of lamination to the left of the bust.

The Guatemalan 8 Escudos were first machine-struck in 1754 during Ferdinand VI's 13-year reign. The machine striking added a rim to the coins that had previously been minted with crude edges—also known as cobs. 1754 was also the first year where the actual bust of Ferdinand VI was used, as opposed to that of Felipe V. As Calico states in his book *La Onza* that there are very few specimens known, and Krause simply calls it "Rare". Estimate: \$30,000-\$40,000 Starting Bid: \$15,000.

## A Splendid Portrait 8 Escudos of 1733

**21944 Felipe V Portrait gold 8 Escudos 1733-Mo F, KM148, Cayon-10030, Calico-422, MS64 NGC, an outstanding coin with slight soft strike in the center fields. Well-set colors with a rich subdued gold patina, bold legends and strong rims. This coin looks like it has just sat around for almost 300 years!**

Felipe V, King of Spain, known as Philip to most of the world, was born at Versailles on December 19, 1683. As the first king of the Bourbon dynasty (which rules Spain to this day), he inherited the kingdom from Charles II, who died without an heir. Felipe actually reigned twice, from 1700 to 1724, and then again from 1725 to 1746. He produced a considerable amount of diverse coinage, the best of which feature his armored bust, and flowing locks cascading down over his shoulder.

In 1732, the mintage of gold coins was changed at the Mexico City mint from the medieval style featuring a huge cross and the royal crest to the portrait type. The initial dates of 1732 and 1733 are very rare, with only the letter "F" being featured as the assayer's initial (this changed to "MF" in 1734). The specimen we present here is nothing short of amazing, seemingly in better condition than the Cayon plate coin and certainly better centered. Krause simply lists this coin as "Rare" while Calico calls it "Muy Rara" (or Very Rare). The buyer of this wonderful specimen will certainly make a significant addition to his/her collection. Another 1733 8 Escudos from Mexico in the same grade realized \$54,625 in our January 2009 NYINC sale (lot 21900).

Estimate: \$30,000-\$40,000 Starting Bid: \$15,000.

**21945 Ferdinand VI Pillar 8 Reales 1758 Mo-MM, KM104.2, AU58 PCGS.** Sharply struck with luster remaining around the devices. Estimate: \$500-\$550 Starting Bid: \$250.

**21946 Ferdinand VI gold 8 Escudos 1747 Mo-MF, KM149, VF Details NCS** (removed from jewelry), very rare one-year type featuring a larger and more elaborate bust of the King. This engraved portrait is rather shallow compared to the more highly-defined, smaller bust that was introduced in 1748. Seldom encountered in the market, and a very collectible example despite the jewelry damage. Estimate: \$8,000-\$10,000 Starting Bid: \$4,000.

**21947 Carlos III 1/2 Real 1773-FM "CAROLS," KM69.2, rare variety** with the King's named expressed as CAROLS, MS63 NGC, superb blue-green patina. Estimate: \$600-\$750 Starting Bid: \$300.

**21948 Carlos III 1/2 Real 1773-FM, KM69.2, MS65 NGC,** dazzling multi-hued patina with sharp features and wonderful eye appeal. Estimate: \$500-\$700 Starting Bid: \$250.

**21949 Carlos III Pillar 4 Reales 1768-MF, KM96, AU53 PCGS,** an original example with bold details and good eye appeal. Scarce type in this quality. Estimate: \$600-\$750 Starting Bid: \$300.

**21950 Carlos III gold Escudo 1762-MM, KM117, XF45 NGC,** a choice example of the "ratnose" bust type for Carlos III with handsome old-time rose gold patina and uniformly sharp details on both sides. This type is only occasionally available in the market and seldom with this exceptional eye appeal. Estimate: \$1,200-\$1,500 Starting Bid: \$600.

- 21951 Charles III gold 4 Escudos 1775 Mo-FM, KM142.2, XF40 NGC.** Traces of luster, most notably in the legends, with a decent strike. A very scarce type.  
Estimate: \$2,000-\$2,500 Starting Bid: \$2,000.

- 21952 Charles III gold Escudo 1808 Mo-TH, KM120, Choice AU.** Brilliant luster with only a slight amount of rubbing. An exceptional example of this type.  
Estimate: \$450-\$550 Starting Bid: \$225.

- 21953 Carlos III gold 8 Escudos 1793/2-FM, KM159, AU53 NGC,** an unusually nice example with original luster, bold details and no adjustment marks. Additionally, the 3 in the date is clearly punched over a 2, overdate unlisted in the SCWC.  
Estimate: \$1,400-\$1,750 Starting Bid: \$700.

- 21954 Carlos III gold 8 Escudos 1801-FM, KM159, XF details but ex-jewelry with burnished surfaces and a small mount trace at 12 o'clock.** Despite the obvious blemishes, the overall appearance of this coin is quite decent. AGW 0.7615 oz.  
Estimate: \$800-\$900 Starting Bid: \$400.

- 21955 Carlos IV silver 8 Reales Proclamation Medal 1789, KM-Q28,** Grove C-9, plain edge, 22.19 grams. Superb toned AU-UNC, struck over an earlier coin. Proclaiming the ascension of Carlos IV in Mexico. The reverse legend includes the denomination, 8R. A particularly handsome example with flashy prooflike surfaces and great eye appeal.  
Estimate: \$600-\$750 Starting Bid: \$300.

- 21956 Ferdinand VII 1/2 Real 1814-JJ, KM73, MS66 NGC,** splendid deep blue-green and purple patina, highly attractive.  
Estimate: \$325-\$400 Starting Bid: \$162.

- 21957 Ferdinand VII 8 Reales 1810-HJ**, KM110, MS63 NGC, brilliant surfaces with a small patch of patination on the King's head, barely noticeable. Scarce grade for this type.  
Estimate: \$350-\$450 Starting Bid: \$175.

- 21958 Ferdinand VII 8 Reales 1814-JJ**, KM111, MS62 NGC. Light gray patina with hints of gold in the legends. A very pleasant coin with sharp details.  
Estimate: \$250-\$350

- 21959 Ferdinand VII 8 Reales 1819-JJ**, KM111, choice toned AU-UNC, very sharp details although the reverse die was a bit rusty.  
Estimate: \$225-\$275

- 21960 Ferdinand VII gold 8 Escudos 1816-JJ**, KM161, toned XF, a decent original example with no flan flaws or adjustment marks.  
Estimate: \$1,200-\$1,400 Starting Bid: \$600.

- 21961 Ferdinand VII gold 8 Escudos 1817-JJ**, KM161, AU55 NGC, highly lustrous and attractive, two tiny contact marks on the bust. A superior coin in all respects.  
Estimate: \$1,600-\$2,000 Starting Bid: \$800.

- 21962 War of Independence-Chilpanzingo 8 Reales ND**, KM258.1, Veracruz, Fine 15 NGC, counterstamp on cast 1808-Mo 8 Reales.  
Estimate: \$300-\$350 Starting Bid: \$300.

- 21963 Augustin I Iturbide 1/2 Real 1822-JM**, KM301, MS65 NGC, very bold details, brilliant prooflike surfaces with toning in the legends. Very scarce type in this select quality.  
Estimate: \$600-\$750 Starting Bid: \$300.

- 21964 Republic Real 1846Zs-OM**, KM372.10, MS66 NGC, New Obverse, a gorgeous coin with deep patina and full underlying mint luster.  
Estimate: \$225-\$300

- 21965 Republic 8 Reales 1837Ca-AM**, KM377.2, XF40 NGC, dark and intriguing: poorly struck, center of the eagle smashed flat, the cap disfigured, the rays generally sharp though and dramatic looking, most of the date struck through thick grease or poorly engraved, or both, but the toning dark gray and appealing. In a way, a perfect example of the early products of the mint at Chihuahua. Rare.  
Estimate: \$1,000-\$1,500 Starting Bid: \$500.

- 21966 Republic 8 Reales 1868Go-YF**, KM377.8, MS65 NGC, an exceptionally sharp example with full mint brilliance.  
Estimate: \$325-\$375 Starting Bid: \$325.

- 21967 Republic 8 Reales 1863Mo-TH**, KM377.10, MS65 NGC, slightly prooflike, very attractive.  
Estimate: \$300-\$350 Starting Bid: \$300.

- 21968 Republic 8 Reales 1874Mo-MH**, KM377.10, choice brilliant UNC with beautiful blue-green and russet patina - a visual delight!  
Estimate: \$225-\$275

- 21969 Republic 8 Reales 1889Pi-MR**, KM377.12, MS65 NGC, a choice original example with light golden patina.  
Estimate: \$300-\$350 Starting Bid: \$300.

- 21970 Republic Hand on Book gold 1/2 Escudo 1862/1 Zs-VL**, KM378.6, Choice AU. Lustrous and well struck. All of the 1862 Zs 1/2 Escudos are overdates. Although Krause lists a non-overdate issue, there is no such coin. The overdate is amazingly bold.  
Estimate: \$150-\$175

- 21971 Republic gold 2 Escudos 1860Ga-JG**, KM380.3, MS64 PL NGC, exceptionally nice surfaces with full brilliant mint luster. The 6 is clearly cut over a 5 and the 0 shows traces of an underlying numeral, perhaps a 9. Very scarce type in this select quality.  
Estimate: \$1,200-\$1,500 Starting Bid: \$600.

**21972 Republic gold 4 Escudos 1831Go-MJ**, KM381.4, AU58 NGC, a choice lustrous example of this early date, rare in this premium quality. Slightly crude as made, a charming and highly desirable coin.  
Estimate: \$2,250-\$2,750 Starting Bid: \$1,125.

**21974 Republic gold 8 Escudos 1870Do-CP**, KM383.3, AU58 NGC, highly lustrous with sharply defined details, superior grade examples from the Durango Mint are very elusive.  
*From the Village Coin Estate Collection.*  
Estimate: \$1,500-\$2,000 Starting Bid: \$750.

**21973 Republic gold 8 Escudos 1869C-CE**, KM383.2, VF-XF, lightly toned and original, flan lamination on the "book" and typically weakly struck centers. AGW 0.7616 oz.

Estimate: \$900-\$1,200 Starting Bid: \$450.

- 21984 Republic gold 8 Escudos 1868Go-YF, KM383.7, MS61 NGC,** fully lustrous with extremely sharp central details on both sides. Some light handling in the reverse fields has limited the NGC grade for this coin, but the eye appeal exceeds the technical grade. Estimate: \$1,200-\$1,500 Starting Bid: \$600.

- 21985 Republic gold 8 Escudos 1870Go-FR, KM383.7, AU58 NGC,** lightly toned with bold details and very nice surfaces - a premium coin for this series. Estimate: \$1,200-\$1,400 Starting Bid: \$600.

## A Special Selection of Gold Nuggets

**22105 Coral Encrusted Gold Chunk**, Neatly shaped, from unknown shipwreck. 441.2 grams, 18k.  
Estimate: \$9,000-\$10,000 Starting Bid: \$4,500.

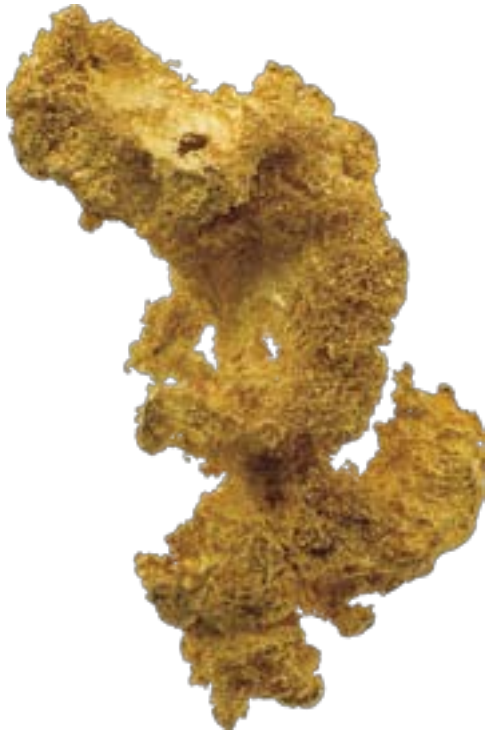

**22106 Large Gold Nugget**. The smooth-rubbed undulating form of this nugget is testament to extensive alluvial action, the natural botryoidal growths gently burnished by repeated water-tumbling. Interspersed throughout are crevices and caverns which retain a more textured appearance, appearing folded in on themselves, as though deliberately molded by the hand of nature. The whole piece is enlivened throughout by fragments and coloring from the original host iron-rock, the deep rust-red contrasting pleasantly with the bright yellow gold. This fine specimen measures approximately 3-1/8 x 2-1/8 x 1 1/2 inches and weighs 22.62 Troy oz (over 600g). AGW 22.6200 oz.  
Estimate: \$17,000-\$19,000 Starting Bid: \$8,500.

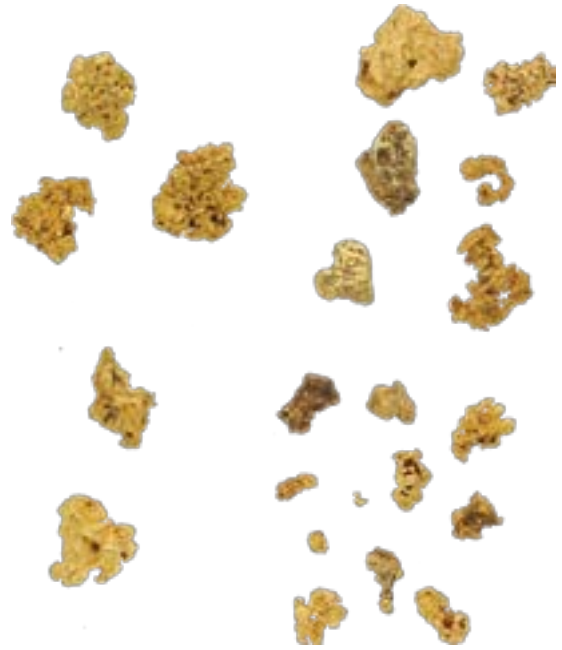

**22107 Large Gold After Quartz**. The folded, twisted form of this nugget gives the impression of a large mass of crushed gold leaf, the rounded raised areas rubbed smooth by water tumbling, the crevices and depressions retaining a more textured, brittle appearance. For additional character, interspersed throughout are fragments of the opaque white quartz around which the gold originally grew. A fine large specimen, it measures approximately 4-1/8 x 3-1/8 x 1 1/2 inches and weighs 31.38 Troy oz (over 600g). AGW 31.3800 oz.  
Estimate: \$23,500-\$25,500 Starting Bid: \$11,750.

- 22108 Crystalline Gold After Quartz.** A fantastic nugget, of complex coral-like form, with superfine crystalline texture and bright yellow coloring, denoting a high karat content. This nugget was originally combined with quartz, as is often the case, but the latter mineral was entirely removed via an acid bath to leave the exceptionally finely frilled and minutely pitted structure of the gold intact. A remarkably attractive specimen, this nugget measures approximately 3-7/8 x 2-1/8 x 1-7/8 inches and weighs 11.64 Troy oz (356.4g). AGW 11.6400 oz.  
Estimate: \$8,500-\$10,500 Starting Bid: \$4,250.

- 22109 Twenty-one Small Gold Nuggets.** The most striking of this selection of twenty-one tiny gold specimens has been rubbed almost entirely smooth by the rolling water of some river or creek bed, and which to time and chance have imparted the flattened shape of a tiny 1/2-inch wide heart. The remainder show a good variety of color and texture, from a little crumpled-looking U-shape, to a smooth flat platelet; a small angular piece with the textured appearance of crushed gold leaf, and various tiny pebbles, some enlivened by traces of a striking bright red host rock. The largest piece measures approximately 3/4 x 5/8 x 3/8 inches; the smallest approximately 3/16 x 1/8 x 1/16 inches; and the total weight of all twenty-one is 2.24 Troy oz (69.6g). AGW 2.2400 oz. (Total: 21 nuggets)  
Estimate: \$1,600-\$1,800 Starting Bid: \$800.

**22110 Seven Small Gold Nuggets.** A fine variety of gold nuggets of various forms including: one elongated, flattened specimen; one rounded pebble specimen, rubbed almost entirely smooth by alluvial action; one three-dimensional crystalline specimen after quartz, of delicate filigree form with a section of reddish-quartz at the center; another with traces of opaque white quartz; one with attractively contrasting traces of rust-red iron-stone; and two others. Displaying a variety of good yellow shades, the largest measures approximately 1-1/8 x 1-1/8 x 1/2 inches; the smallest approximately 7/8 x 7/8 x 5/8 inches; and the total weight of all seven is 5.425 Troy oz (168.7g). AGW 5.4250 oz. (Total: 7 nuggets) Estimate: \$4,000-\$6,000 Starting Bid: \$2,000.

**22111 Gold After Iron-Stone Accompanied by Five Individual Nuggets.** The centerpiece of this lot is a sizable, rounded rock of dark rust-red iron-stone, its surfaced spattered with fine traces of gold. Gold will often grow around and enclose a host rock; this specimen is unusual in that it shows the process at its earliest stages. The rock measures approximately 2-3/8 x 2-3/8 x 1 1/2 inches and weighs 199.1g. Together with five smaller nuggets displaying various degrees of burnish through water-tumbling and a good high yellow color: two are of attractively flattened form; two more retain good three-dimensionality, of which one bears a striking triangular resemblance to a large drooping nose; and the final specimen exhibits a particularly fine textured surface, reminiscent of crushed gold leaf. The largest measures approximately 2-5/8 x 1-7/8 x 1/2 inches; the smallest approximately 1-3/8 x 1 x 1/2 inches; and the total weight of all five is 10.79 Troy oz (335.6g). AGW 10.7900 oz. (Total: 6 items) Estimate: \$8,000-\$10,000 Starting Bid: \$4,000.

- 22112 Five Water-Tumbled Gold Nuggets.** These five specimens all exhibit a great degree of water tumbling, their surfaces rubbed almost entirely smooth, bringing the bright yellow color to a gleaming finish. Highly attractive, they almost have the appearance of some shining golden putty, folded and molded by hand. Some retain narrow, deeper crevices where the crystalline texture is still visible to provide a pleasing contrast, and two of the pieces are enlivened by the inclusion of small sections of the opaque white quartz around which the gold originally developed. The largest nugget measures approximately 2-3/8 x 1 1/4 x 1/2 inches; the smallest approximately 1 1/4 x 3/4 x 1/2 inches; and the total weight of all five is 15.895 Troy oz (494.5g). AGW 15.8950 oz. (Total: 5 nuggets)  
Estimate: \$12,000-\$15,000 Starting Bid: \$6,000.

*The countermarks were applied by Legio X Fretensis and Legio XII Fulminata, both of which fought against the Jewish rebels during the First Revolt. These two legions participated in the storming of Jerusalem in A.D. 70, and after the war Legio X was used to garrison the desolate province of Judaea. Legio XII was transferred to Melitene in Cappadocia. Because of the early transfer of Legio XII it seems likely that the countermark of this legion was applied during or very shortly after the Jewish War.* Est.: \$200-\$250

The legionary veterans settled there have been variously identified as legiones III, V (or VI), X, XI (or XII).*

Est.: \$150-\$200

**22938 A. Plautius.** 55 B.C. AR denarius (17 mm, 3.96 g, 10 h). Rome. Turreted head of Cybele right / Bacchus kneeling to right beside camel, extending olive branch. Crawford 431/1; Sydenham 932; Plautia 13; Hendin 741. VF, nicely toned. *This denarius commemorates the eastern settlement of Pompey the Great. The reverse type is controversial as it is unclear who exactly is represented. It has been variously suggested that the kneeling figure represents Dionysios (Bacchus in Latin) the Arab tyrant of Tripolis subdued and beheaded by Pompey. It has also been argued that the figure represents Aristobulus II, defeated Jewish (Judaea in Latin) contender for the throne and high priesthood of Jerusalem against Hyrcanus II. Both theories seem plausible and it is not impossible that the die engraver has conflated both personalities into one generic "eastern" figure.* Est.: \$200-\$250

VF, green patina. *The reverse celebrates Nero's ostentatious closure of the doors of the Temple of Janus to signify a return of peace to the Empire. ## End of Session Four

# Heritage Auction Galleries Staff

## **Steve Ivy - Co-Chairman and CEO**

Steve Ivy began collecting and studying rare coins in his youth, and as a teenager in 1963 began advertising coins for sale in national publications. Seven years later, at the age of twenty, he opened Steve Ivy Rare Coins in downtown Dallas, and in 1976, Steve Ivy Numismatic Auctions was incorporated. Steve managed the business as well as serving as chief numismatist, buying and selling hundreds of millions of dollars of coins during the 1970s and early 1980s. In early 1983, James Halperin became a full partner, and the name of the corporation was changed to Heritage Rare Coin Galleries. Steve's primary responsibilities now include management of the marketing and selling efforts of the company, the formation of corporate policy for long-term growth, and corporate relations with financial institutions. He remains intimately involved in numismatics, attending all major national shows. Steve engages in daily discourse with industry leaders on all aspects of the rare coin/currency business, and his views on grading, market trends and hobby developments are respected throughout the industry. He serves on the Board of Directors of the Professional Numismatists Guild (and was immediate past president), is the current Chairman of The Industry Council for Tangible Assets, and is a member of most leading numismatic organizations. Steve's keen appreciation of history is reflected in his active participation in other organizations, including past or present board positions on the Texas Historical Foundation and the Dallas Historical Society (where he also served as Exhibits Chairman). Steve is an avid collector of Texas books, manuscripts, and national currency, and he owns one of the largest and finest collections in private hands. He is also a past Board Chair of Dallas Challenge, and is currently the Finance Chair of the Phoenix House of Texas.

## **James Halperin - Co-Chairman**

Jim Halperin and the traders under his supervision have transacted billions of dollars in rare coin business, and have outsold all other numismatic firms every year for over two decades. Born in Boston in 1952, Jim attended Middlesex School in Concord from 1966 to 1970. At the age of 15, he formed a part-time rare coin business after discovering that he had a knack (along with a nearly photographic memory) for coins. Jim scored a perfect 800 on his math SATs and received early acceptance to Harvard College, but after attending three semesters, he took a permanent leave of absence to pursue his full-time numismatic career. In 1975, Jim personally supervised the protocols for the first mainframe computer system in the numismatic business, which would catapult New England Rare Coin Galleries to the top of the industry in less than four years. In 1983, Jim's business merged with that of his friend and former archrival Steve Ivy. Their partnership has become the world's largest and most successful numismatic company, as well as the third-largest auctioneer in America. Jim remains one of the best "eyes" in the coin business today (he won the professional division of the PCGS World Series of Grading the last time he competed). In the mid-1980s, he authored "How to Grade U.S. Coins" (now posted on the web at [www.CoinGrading.com](http://www.CoinGrading.com)), a highly-acclaimed text upon which the NGC and PCGS grading standards would ultimately be based. Jim is also a well-known futurist, an active collector of EC comics and early 20th-century American art (visit [www.jhalpe.com](http://www.jhalpe.com)), venture capital investor, philanthropist (he endows a multimillion-dollar health education foundation), and part-time novelist. His first fictional novel, "The Truth Machine," was published in 1996 and became an international science fiction bestseller, and was optioned for movie development by Warner Brothers and Lion's Gate. Jim's second novel, "The First Immortal," was published in early 1998 and immediately optioned as a Hallmark Hall of Fame television miniseries.

## **Greg Rohan - President**

At the age of eight, Greg Rohan started collecting coins as well as buying them for resale to his schoolmates. By 1971, at the age of 10, he was already buying and selling coins from a dealer's table at trade shows in his hometown of Seattle. His business grew rapidly, and by 1985 he had offices in both Seattle and Minneapolis. He joined Heritage in 1987 as Executive Vice-President and Manager of the firm's rare coin business. Today, as an owner and as President of Heritage, his responsibilities include overseeing the firm's private client group and working with top collectors in every field in which Heritage is active. Greg has been involved with many of the rarest items and most important collections handled by the firm, including the purchase and/or sale of the Ed Trompeter Collection (the world's largest numismatic purchase according to the Guinness Book of World Records), the legendary 1894 San Francisco Dime, the 1838 New Orleans Half Dollar, and the 1804 Silver Dollar. During his career, Greg has handled more than \$1 billion of rare coins, collectibles and art, and provided expert consultation concerning the authenticity and grade condition of coins for the Professional Coin Grading Service (PCGS). He has provided expert testimony for the United States Attorneys in San Francisco, Dallas, and Philadelphia, and for the Federal Trade Commission (FTC). He has worked with collectors, consignors, and their advisors regarding significant collections of books, manuscripts, comics, currency, jewelry, vintage movie posters, sports and entertainment memorabilia, decorative arts, and fine art. Additionally, Greg is a Sage Society member of the American Numismatic Society, and a member/life member of the PNG, ANA, and most other leading numismatic organizations. Greg is also Chapter Chairman for North Texas of the Young Presidents' Organization (YPO), and is an active supporter of the arts. Greg co-authored "The Collectors Estate Handbook," winner of the NLG's Robert Friedberg Award for numismatic book of the year. Mr. Rohan currently serves on the seven-person Advisory Board to the Federal Reserve Bank of Dallas, in his second appointed term.

## **Paul Minshull - Chief Operating Officer**

As Chief Operating Officer, Paul Minshull's managerial responsibilities include integrating sales, personnel, inventory, security and MIS for Heritage. His major accomplishments include overseeing the hardware migration from mainframe to PC, the software migration of all inventory and sales systems, and implementation of a major Internet presence. Heritage's successful employee-suggestion program has generated 200 or more ideas each month since 1995, and has helped increase employee productivity, expand business, and improve employee retention. Paul oversees the company's highly-regarded IT department, and has been the driving force behind Heritage's Web development, now a significant portion of Heritage's future plans. As the only numismatic auction house that combines traditional floor bidding with active Internet bidding, the totally interactive system has catapulted Heritage to the top rare coin Web site (according to Forbes Magazine's "Best of the Web"). Paul came to Heritage in 1984. Since 1987, he has been a general partner in Heritage Capital Properties, Sales Manager, Vice President of Operations, and Chief Operating Officer for all Heritage companies and affiliates since 1996.

**Todd Imhof - Vice President**

Todd Imhof did not start collecting coins in his teens, unlike most professional numismatists. Shortly after graduating college, Todd declined an offer from a prestigious Wall Street bank to join a former high school classmate in his small rare coin firm in the Seattle area. In the mid-1980s, the rare coin industry was rapidly changing, with the advent of third-party grading and growing computer technologies; as a newcomer, Todd more easily embraced these new dynamics. In 1991, he co-founded Pinnacle Rarities, a firm specialized in servicing the savviest and most prominent collectors in numismatics. At 25, he was accepted into the PNG, and currently serves on its Consumer Protection Committee and its Legislation/Taxation Issues Committee. In 1992, he was invited to join the Board of Directors for the Industry Council for Tangible Assets, later serving as its Chairman (2002-2005).

**Leo Frese - Vice President**

Leo has been involved in numismatics for nearly 40 years, a professional numismatist since 1971, and has been with Heritage for more than 20 years. He literally worked his way up the Heritage "ladder," working with Bob Merrill for nearly 15 years, then becoming Director of Consignments. Leo has been actively involved in assisting clients sell nearly \$500,000,000 in numismatic material. Leo was recently accepted as a member of PNG, is a life member of the ANA, and holds membership in FUN, CSNS, and other numismatic organizations.

**Jim Stoutjesdyk - Vice President**

Jim Stoutjesdyk was named Vice President of Heritage Rare Coin Galleries in 2004. He was named ANA's Outstanding Young Numismatist of the Year in 1987. A University of Michigan graduate, he was first employed by Superior Galleries, eventually becoming their Director of Collector Sales. Since joining Heritage in 1993, Jim has served in many capacities. Jim's duties now include buying and selling, pricing all new purchases, assisting with auction estimates and reserves, and overseeing the daily operations of the rare coin department.

**Norma L. Gonzalez - VP of Auction Operations**

Norma Gonzalez joined the U.S. Navy in August of 1993 and received her Bachelor's Degree in Resource Management. She joined Heritage in 1998 and was promoted to Vice President in 2003. She currently manages the operations departments, including Coins, Currency, World & Ancient Coins, Sportscards & Memorabilia, Comics, Movie Posters, Pop Culture and Political Memorabilia.

**Debbie Rexing - VP - Marketing**

Debbie Rexing joined the Heritage team in 2001 and her marketing credentials include degrees in Business Administration and Human Resources from The Ohio State University. Debbie has worked across many categories within the company leading to her comprehensive and integrative approach to the job. She guides all aspects of Heritage's print marketing strategies – advertisements, brochures, direct mail campaigns, coordination of print buying, catalog design and production, The Heritage Magazine, and media and press relations.

**Ron Brackemyre - Vice President**

Ron Brackemyre began his career at Heritage Auction Galleries in 1998 as the Manager of the Shipping Department, and was promoted to Consignment Operations Manager for Numismatics in 2004. He is responsible for the security of all of Heritage's coin and currency consignments, both at the Dallas world headquarters and at shows. His department also coordinates the photography, scanning, and cataloging of coins for upcoming auctions; coordination of auction planning; security and transportation logistics, and lot-view and auction prep.

**Marti Korver - Manager - Credit/Collections**

Marti Korver was recruited out of the banking profession by Jim Ruddy, and she worked with Paul Rynearson, Karl Stephens, and Judy Cahn on ancient and world coins at Bowers & Ruddy Galleries, in Hollywood, CA. She migrated into the coin auction business, and represented bidders as agent at B&R auctions for 10 years. She also worked as a research assistant for Q. David Bowers for several years.

## **Warren Tucker- Director of World Coin Auctions**

Warren Tucker has been a full-time coin dealer since 1964. In 1968, he joined Jack Boozer and Doug Weaver in business in Waco, Texas, where he first met Steve Ivy. Warren later moved back to Georgia, where he became a partner with John Hamrick at WorldWide Coin Investments of Atlanta. During the 1970s, Warren began more extensive travel throughout Europe and Asia to buy coins. In 1979, he first joined forces with Steve Ivy, opening an office in Atlanta. Associations with Richard Nelson and Ronald J. Gillio followed thereafter.

## **Cristiano Bierrenbach - Director of International Sales**

Cristiano Bierrenbach received a degree in management from Bucknell University in Pennsylvania in 1996. In 1999, Cristiano founded Bier Numismatica and within a few years had become one of the largest numismatic dealers in Latin America. At the age of 30, he became the youngest ever Technical Director of the Brazilian Numismatic Society, and is the founder of the Latin American Numismatic Convention. He is a life member of the ANA and FUN and several other numismatic clubs and organizations around the world.

## **Scott Cordry - Assistant Director of World Coin Auctions**

Scott Cordry graduated from UC Berkeley with “great distinction” and Phi Beta Kappa honors. After college, he worked for Worldwide Coins in Atlanta for a few months before going into business for himself, and then in partnership with Freeman Craig. In 1975, Scott again decided to pursue world coins independently, and he has been in the foreign coin business ever since. Scott is a member of the ANA, NI, AINA, ONS and IBNS, and has been a member of the IAPN as well, from 1979-1993. Scott has been cataloging world coins for Heritage World Coin Auctions since October of 2002.

# Terms and Conditions of Auction

## Auctioneer and Auction:

1. This Auction is presented by Heritage Auction Galleries, a d/b/a of Heritage Auctions, Inc., or its affiliates Heritage Numismatic Auctions, Inc., or Heritage Vintage Sports Auctions, Inc., or Currency Auctions of America, Inc., as identified with the applicable licensing information on the title page of the catalog or on the HA.com Internet site (the "Auctioneer"). The Auction is conducted under these Terms and Conditions of Auction and applicable state and local law. Announcements and corrections from the podium and those made through the Terms and Conditions of Auctions appearing on the Internet at HA.com supersede those in the printed catalog.

## Buyer's Premium:

2. On bids placed through Auctioneer, a Buyer's Premium of fifteen percent (15%) will be added to the successful hammer price bid on lots in Coin and Currency auctions, or nineteen and one-half percent (19.5%) on lots in all other auctions. There is a minimum Buyer's Premium of \$9.00 per lot; after June 1, 2009, the minimum Buyer's Premium shall be \$14.00 per lot. In Gallery Auctions (sealed bid auctions of mostly bulk numismatic material), the Buyer's Premium is 19.5%.

## Auction Venues:

3. The following Auctions are conducted solely on the Internet: Heritage Weekly Internet Auctions (Coin, Currency, Comics, and Vintage Movie Poster); Heritage Monthly Internet Auctions (Sports, and Stamps). Signature® Auctions and Grand Format Auctions accept bids from the Internet, telephone, fax, or mail first, followed by a floor bidding session; Heritage Live and real-time telephone bidding are available to registered clients during these auctions.

## Bidders:

4. Any person participating or registering for the Auction agrees to be bound by and accepts these Terms and Conditions of Auction ("Bidder(s)").
5. All Bidders must meet Auctioneer's qualifications to bid. Any Bidder who is not a client in good standing of the Auctioneer may be disqualified at Auctioneer's sole option and will not be awarded lots. Such determination may be made by Auctioneer in its sole and unlimited discretion, at any time prior to, during, or even after the close of the Auction. Auctioneer reserves the right to exclude any person from the auction.
6. If an entity places a bid, then the person executing the bid on behalf of the entity agrees to personally guarantee payment for any successful bid.

## Credit:

7. Bidders who have not established credit with the Auctioneer must either furnish satisfactory credit information (including two collectibles-related business references) well in advance of the Auction or supply valid credit card information. Bids placed through our Interactive Internet program will only be accepted from pre-registered Bidders; Bidders who are not members of HA.com or affiliates should pre-register at least 48 hours before the start of the first session (exclusive of holidays or weekends) to allow adequate time to contact references. Credit may be granted at the discretion of Auctioneer. Additionally Bidders who have not previously established credit or who wish to bid in excess of their established credit history may be required to provide their social security number or the last four digits thereof to us so a credit check may be performed prior to Auctioneer's acceptance of a bid.

## Bidding Options:

8. Bids in Signature, Auctions or Grand Format Auctions may be placed as set forth in the printed catalog section entitled "Choose your bidding method." For auctions held solely on the Internet, see the alternatives on HA.com. Review at HA.com/common/howtobid.php.
9. Presentment of Bids: Non-Internet bids (including but not limited to podium, fax, phone and mail bids) are treated similar to floor bids in that they must be on-increment or at a half increment (called a cut bid). Any podium, fax, phone, or mail bids that do not conform to a full or half increment will be rounded up or down to the nearest full or half increment and this revised amount will be considered your high bid.
10. Auctioneer's Execution of Certain Bids. Auctioneer cannot be responsible for your errors in bidding, so carefully check that every bid is entered correctly. When identical mail or FAX bids are submitted, preference is given to the first received. To ensure the greatest accuracy, your written bids should be entered on the standard printed bid sheet and be received at Auctioneer's place of business at least two business days before the Auction start. Auctioneer is not responsible for executing mail bids or FAX bids received on or after the day the first lot is sold, nor Internet bids submitted after the published closing time; nor is Auctioneer responsible for proper execution of bids submitted by telephone, mail, FAX, e-mail, Internet, or in person once the Auction begins. Internet bids may not be withdrawn until your written request is received and acknowledged by Auctioneer (FAX: 214-4438425); such requests must state the reason, and may constitute grounds for withdrawal of bidding privileges. Lots won by mail Bidders will not be delivered at the Auction unless prearranged.
11. Caveat as to Bid Increments. Bid increments (over the current bid level) determine the lowest amount you may bid on a particular lot. Bids greater than one increment over the current bid can be any whole dollar amount. It is possible under several circumstances for winning bids to be between increments, sometimes only \$1 above the previous increment. Please see: "How can I lose by less than an increment?" on our website. Bids will be accepted in whole dollar amounts only. No "buy" or "unlimited" bids will be accepted.

The following chart governs current bidding increments.

Current Bid.....	Bid Increment	Current Bid.....	Bid Increment
<\$10 .....	\$1	\$20,000 - \$29,999 .....	\$2,000

\$10,000 - \$19,999 .....	\$1,000		

12. If Auctioneer calls for a full increment, a bidder may request Auctioneer to accept a bid at half of the increment ("Cut Bid") only once per lot. After offering a Cut Bid, bidders may continue to participate only at full increments. Off-increment bids may be accepted by the Auctioneer at Signature® Auctions and Grand Format Auctions. If the Auctioneer solicits bids other than the expected increment, these bids will not be considered Cut Bids.

## Conducting the Auction:

13. Notice of the consignor's liberty to place bids on his lots in the Auction is hereby made in accordance with Article 2 of the Texas Business and Commercial Code. A "Minimum Bid" is an amount below which the lot will not sell. THE CONSIGNOR OF PROPERTY MAY PLACE WRITTEN "Minimum Bids" ON HIS LOTS IN ADVANCE OF THE AUCTION; ON SUCH LOTS, IF THE HAMMER PRICE DOES NOT MEET THE "Minimum Bid", THE CONSIGNOR MAY PAY A REDUCED COMMISSION ON THOSE LOTS. "Minimum Bids" are generally posted online several days prior to the Auction closing. For any successful bid placed by a consignor on his Property on the Auction floor, or by any means during the live session, or after the "Minimum Bid" for an Auction have been posted, we will require the consignor to pay full Buyer's Premium and Seller's Commissions on such lot.
14. The highest qualified Bidder recognized by the Auctioneer shall be the buyer. In the event of any dispute between any Bidders at an Auction, Auctioneer may at his sole discretion reaffirm the lot. Auctioneer's decision and declaration of the winning Bidder shall be final and binding upon all Bidders. Bids properly offered, whether by floor Bidder or other means of bidding, may on occasion be missed or go unrecognized; in such cases, the Auctioneer may declare the recognized bid accepted as the winning bid, regardless of whether a competing bid may have been higher.
15. Auctioneer reserves the right to refuse to honor any bid or to limit the amount of any bid, in its sole discretion. A bid is considered not made in "Good Faith" when made by an insolvent or irresponsible person, a person under the age of eighteen, or is not supported by satisfactory credit, collectibles references, or otherwise. Regardless of the disclosure of his identity, any bid by a consignor or his agent on a lot consigned by him is deemed to be made in "Good Faith." Any person apparently appearing on the OFAC list is not eligible to bid.
16. Nominal Bids. The Auctioneer in its sole discretion may reject nominal bids, small opening bids, or very nominal advances. If a lot bearing estimates fails to open for 40-60% of the low estimate, the Auctioneer may pass the item or may place a protective bid on behalf of the consignor.
17. Lots bearing bidding estimates shall open at Auctioneer's discretion (approximately 50% of the low estimate). In the event that no bid meets or exceeds that opening amount, the lot shall pass as unsold.
18. All items are to be purchased per lot as numerically indicated and no lots will be broken. Auctioneer reserves the right to withdraw, prior to the close, any lots from the Auction.
19. Auctioneer reserves the right to rescind the sale in the event of nonpayment, breach of a warranty, disputed ownership, auctioneer's clerical error or omission in exercising bids and reserves, or for any other reason and in Auctioneer's sole discretion. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) and any other damages or expenses pertaining to the lot.
20. Auctioneer occasionally experiences Internet and/or Server service outages, and Auctioneer periodically schedules system downtime for maintenance and other purposes, during which Bidders cannot participate or place bids. If such outages occur, we may at our discretion extend bidding for the Auction. Bidders unable to place their Bids through the Internet are directed to contact Client Services at 1-800-872-6467.
21. The Auctioneer or its affiliates may consign items to be sold in the Auction, and may bid on those lots or any other lots. Auctioneer or affiliates expressly reserve the right to modify any such bids at any time prior to the hammer based upon data made known to the Auctioneer or its affiliates. The Auctioneer may extend advances, guarantees, or loans to certain consignors, and may extend financing or other credits at varying rates to certain Bidders in the auction.
22. The Auctioneer has the right to sell certain unsold items after the close of the Auction. Such lots shall be considered sold during the Auction and all these Terms and Conditions shall apply to such sales including but not limited to the Buyer's Premium, return rights, and disclaimers.

## Payment:

23. All sales are strictly for cash in United States dollars (including U.S. currency, bank wire, cashier checks, travelers checks, eChecks, and bank money orders, all subject to reporting requirements). All are subject to clearing and funds being received in Auctioneer's account before delivery of the purchases. Auctioneer reserves the right to determine if a check constitutes "good funds" when drawn on a U.S. bank for ten days, and thirty days when drawn on an international bank. Credit Card (Visa or Master Card only) and PayPal payments may be accepted up to \$10,000 from non-dealers at the sole discretion of the Auctioneer, subject to the following limitations: a) sales are only to the cardholder, b) purchases are shipped to the cardholder's registered and verified address, c) Auctioneer may pre-approve the cardholder's credit line, d) a credit card transaction may not be used in conjunction with any other financing or extended terms offered by the Auctioneer, and must transact immediately upon invoice presentation, e) rights of return are governed by these Terms and Conditions, which supersede those conditions promulgated by the card issuer, f) floor Bidders must present their card.
24. Payment is due upon closing of the Auction session, or upon presentment of an invoice. Auctioneer reserves the right to void an invoice if payment in full is not received within 7 days after the close of the Auction. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) on the lot and any other damages pertaining to the lot.
25. Lots delivered to you, or your representative in the States of Texas, California, New York, or other states where the Auction may be held, are subject to all applicable state and local taxes, unless appropriate permits are on file with Auctioneer. Bidder agrees to pay Auctioneer the actual amount of tax due in the event that sales tax is not properly collected due to: 1) an expired, inaccurate, inappropriate tax certificate or declaration, 2) an incorrect interpretation of the applicable statute, 3) or any other reason. The appropriate form or certificate must be on file at and verified by Auctioneer five days prior to Auction or tax must be paid; only if such form or certificate is received by Auctioneer within 4 days after the Auction can a refund of tax paid be made. Lots from different Auctions may not be aggregated for sales tax purposes.
26. In the event that a Bidder's payment is dishonored upon presentment(s), Bidder shall pay the maximum statutory processing fee set by applicable state law. If you attempt to pay via eCheck and your financial institution denies this transfer from your bank account, or the payment cannot be completed using the selected funding source, you agree to complete payment using your credit card on file.
27. If any Auction invoice submitted by Auctioneer is not paid in full when due, the unpaid balance will bear interest at the highest rate permitted by law from the date of invoice until paid. Any invoice not paid when due will bear a three percent (3%) late fee on the invoice amount or three percent (3%) of any installment that is past due. If the Auctioneer refers any invoice to an attorney for collection, the buyer agrees to pay attorney's fees, court costs, and other collection costs incurred by Auctioneer. If Auctioneer assigns collection to its in-house legal staff, such attorney's time expended on the matter shall be compensated at a rate comparable to the hourly rate of independent attorneys. .

# Terms and Conditions of Auction

28. In the event a successful Bidder fails to pay any amounts due, Auctioneer reserves the right to sell the lot(s) securing the invoice to any underbidders in the Auction that the lot(s) appeared, or at subsequent private or public sale, or relist the lot(s) in a future auction conducted by Auctioneer. A defaulting Bidder agrees to pay for the reasonable costs of resale (including a 10% seller's commission, if consigned to an auction conducted by Auctioneer). The defaulting Bidder is liable to pay any difference between his total original invoice for the lot(s), plus any applicable interest, and the net proceeds for the lot(s) if sold at private sale or the subsequent hammer price of the lot(s) less the 10% seller's commissions, if sold at an Auctioneer's auction
29. Auctioneer reserves the right to require payment in full in good funds before delivery of the merchandise.
30. Auctioneer shall have a lien against the merchandise purchased by the buyer to secure payment of the Auction invoice. Auctioneer is further granted a lien and the right to retain possession of any other property of the buyer then held by the Auctioneer or its affiliates to secure payment of any Auction invoice or any other amounts due the Auctioneer or affiliates from the buyer. With respect to these lien rights, Auctioneer shall have all the rights of a secured creditor under Article 9 of the Texas Uniform Commercial Code, including but not limited to the right of sale. In addition, with respect to payment of the Auction invoice(s), the buyer waives any and all rights of offset he might otherwise have against the Auctioneer and the consignor of the merchandise included on the invoice. If a Bidder owes Auctioneer or its affiliates on any account, Auctioneer and its affiliates shall have the right to offset such unpaid account by any credit balance due Bidder, and it may secure by possessory lien any unpaid amount by any of the Bidder's property in their possession.
31. Title shall not pass to the successful Bidder until all invoices are paid in full. It is the responsibility of the buyer to provide adequate insurance coverage for the items once they have been delivered to a common carrier or third-party shipper.

## Delivery; Shipping; and Handling Charges:

32. Buyer is liable for shipping and handling. Please refer to Auctioneer's website [www.HA.com/common/shipping.php](http://www.HA.com/common/shipping.php) for the latest charges or call Auctioneer. Auctioneer is unable to combine purchases from other auctions or affiliates into one package for shipping purposes. Lots won will be shipped in a commercially reasonable time after payment in good funds for the merchandise and the shipping fees is received or credit extended, except when third-party shipment occurs.
33. Successful international Bidders shall provide written shipping instructions, including specified customs declarations, to the Auctioneer for any lots to be delivered outside of the United States. NOTE: Declaration value shall be the item(s) hammer price together with its buyer's premium and Auctioneer shall use the correct harmonized code for the lot. Domestic Buyers on lots designated for third-party shipment must designate the common carrier, accept risk of loss, and prepay shipping costs.
34. All shipping charges will be borne by the successful Bidder. Any risk of loss during shipment will be borne by the buyer following Auctioneer's delivery to the designated common carrier or third-party shipper, regardless of domestic or foreign shipment.
35. Due to the nature of some items sold, it shall be the responsibility for the successful bidder to arrange pick-up and shipping through third-parties; as to such items Auctioneer shall have no liability. Failure to pick-up or arrange shipping in a timely fashion (within ten days) shall subject Lots to storage and moving charges, including a \$100 administration fee plus \$10 daily storage for larger items and \$5.00 daily for smaller items (storage fee per item) after 35 days. In the event the Lot is not removed within ninety days, the Lot may be offered for sale to recover any past due storage or moving fees, including a 10% Seller's Commission.
36. The laws of various countries regulate the import or export of certain plant and animal properties, including (but not limited to) items made of (or including) ivory, whalebone, turtleshell, coral, crocodile, or other wildlife. Transport of such lots may require special licenses for export, import, or both. Bidder is responsible for: 1) obtaining all information on such restricted items for both export and import; 2) obtaining all such licenses and/or permits. Delay or failure to obtain any such license or permit does not relieve the buyer of timely compliance with standard payment terms. For further information, please contact Bill Taylor at 800-872-6467 ext. 1280.
37. Any request for shipping verification for undelivered packages must be made within 30 days of shipment by Auctioneer.

## Cataloging, Warranties and Disclaimers:

38. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY DESCRIPTION CONTAINED IN THIS AUCTION OR ANY SECOND OPINE. Any description of the items or second opine contained in this Auction is for the sole purpose of identifying the items for those Bidders who do not have the opportunity to view the lots prior to bidding, and no description of items has been made part of the basis of the bargain or has created any express warranty that the goods would conform to any description made by Auctioneer. Color variations can be expected in any electronic or printed imaging, and are not grounds for the return of any lot. NOTE: Auctioneer, in specified auction venues, for example, Fine Art, may have express written warranties and you are referred to those specific terms and conditions.
39. Auctioneer is selling only such right or title to the items being sold as Auctioneer may have by virtue of consignment agreements on the date of auction and disclaims any warranty of title to the Property. Auctioneer disclaims any warranty of merchantability or fitness for any particular purposes. All images, descriptions, sales data, and archival records are the exclusive property of Auctioneer, and may be used by Auctioneer for advertising, promotion, archival records, and any other uses deemed appropriate.
40. Translations of foreign language documents may be provided as a convenience to interested parties. Auctioneer makes no representation as to the accuracy of those translations and will not be held responsible for errors in bidding arising from inaccuracies in translation.
41. Auctioneer disclaims all liability for damages, consequential or otherwise, arising out of or in connection with the sale of any Property by Auctioneer to Bidder. No third party may rely on any benefit of these Terms and Conditions and any rights, if any, established hereunder are personal to the Bidder and may not be assigned. Any statement made by the Auctioneer is an opinion and does not constitute a warranty or representation. No employee of Auctioneer may alter these Terms and Conditions, and, unless signed by a principal of Auctioneer, any such alteration is null and void.
42. Auctioneer shall not be liable for breakage of glass or damage to frames (patent or latent); such defects, in any event, shall not be a basis for any claim for return or reduction in purchase price.

## Release:

43. In consideration of participation in the Auction and the placing of a bid, Bidder expressly releases Auctioneer, its officers, directors and employees, its affiliates, and its outside experts that provide second opinions, from any and all claims, cause of action, chose of action, whether at law or equity or any arbitration or mediation rights existing under the rules of any professional society or affiliation based upon the assigned description, or a derivative theory, breach of warranty express or implied, representation or other matter set forth within these Terms and Conditions of Auction or otherwise. In the event of a claim, Bidder agrees that such rights and privileges conferred therein are strictly construed as specifically declared herein; e.g., authenticity, typographical error, etc. and are the exclusive remedy. Bidder, by non-compliance to these express terms of a granted remedy, shall waive any claim against Auctioneer.

44. Notice: Some Property sold by Auctioneer are inherently dangerous e.g. firearms, cannons, and small items that may be swallowed or ingested or may have latent defects all of which may cause harm to a person. Purchaser accepts all risk of loss or damage from its purchase of these items and Auctioneer disclaims any liability whether under contract or tort for damages and losses, direct or consequential, and expressly disclaims any warranty as to safety or usage of any lot sold.

## Dispute Resolution and Arbitration Provision:

45. By placing a bid or otherwise participating in the auction, Bidder accepts these Terms and Conditions of Auction, and specifically agrees to the alternative dispute resolution provided herein. Arbitration replaces the right to go to court, including the right to a jury trial.
46. Auctioneer in no event shall be responsible for consequential damages, incidental damages, compensatory damages, or any other damages arising or claimed to be arising from the auction of any lot. In the event that Auctioneer cannot deliver the lot or subsequently it is established that the lot lacks title, or other transfer or condition issue is claimed, in such cases the sole remedy shall be limited to rescission of sale and refund of the amount paid by Bidder; in no case shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot. After one year has elapsed, Auctioneer's maximum liability shall be limited to any commissions and fees Auctioneer earned on that lot.
47. In the event of an attribution error, Auctioneer may at its sole discretion, correct the error on the Internet, or, if discovered at a later date, to refund the buyer's purchase price without further obligation.
48. Arbitration Clause: All controversies or claims under this Agreement or arising from or pertaining to: this Agreement or related documents, or to the Properties consigned hereunder, or the enforcement or interpretation hereof of this or any related agreements, or damage to Properties, payment, or any other matter, or because of an alleged breach, default or misrepresentation under the provisions hereof or otherwise, that cannot be settled amicably within one (1) month from the date of notification of either party to the other of such dispute or question, which notice shall specify the details of such dispute or question, shall be settled by final and binding arbitration by one arbitrator appointed by the American Arbitration Association ("AAA"). The arbitration shall be conducted in Dallas, Dallas County, Texas in accordance with the then existing Commercial Arbitration Rules of the AAA. The arbitration shall be brought within two (2) years of the alleged breach, default or misrepresentation or the claim is waived. The prevailing party (a party that is awarded substantial and material relief on its claim or defense) may be awarded its reasonable attorney's fees and costs. Judgment upon the award rendered by the arbitrator may be entered in any court having jurisdiction thereof; provided, however, that the law applicable to any controversy shall be the law of the State of Texas, regardless of its or any other jurisdictions choice of law principles and under the provisions of the Federal Arbitration Act.
49. No claims of any kind can be considered after the settlements have been made with the consignors. Any dispute after the settlement date is strictly between the Bidder and consignor without involvement or responsibility of the Auctioneer.
50. In consideration of their participation in or application for the Auction, a person or entity (whether the successful Bidder, a Bidder, a purchaser and/or other Auction participant or registrant) agrees that all disputes in any way relating to, arising under, connected with, or incidental to these Terms and Conditions and purchases, or default in payment thereof, shall be arbitrated pursuant to the arbitration provision. In the event that any matter including actions to compel arbitration, construe the agreement, actions in aid or arbitration or otherwise needs to be litigated, such litigation shall be exclusively in the Courts of the State of Texas, in Dallas County, Texas, and if necessary the corresponding appellate courts. For such actions, the successful Bidder, purchaser, or Auction participant also expressly submits himself to the personal jurisdiction of the State of Texas.
51. These Terms & Conditions provide specific remedies for occurrences in the auction and delivery process. Where such remedies are afforded, they shall be interpreted strictly. Bidder agrees that any claim shall utilize such remedies; Bidder making a claim in excess of those remedies provided in these Terms and Conditions agrees that in no case whatsoever shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot.

## Miscellaneous:

52. Agreements between Bidders and consignors to effectuate a non-sale of an item at Auction, inhibit bidding on a consigned item to enter into a private sale agreement for said item, or to utilize the Auctioneer's Auction to obtain sales for non-selling consigned items subsequent to the Auction, are strictly prohibited. If a subsequent sale of a previously consigned item occurs in violation of this provision, Auctioneer reserves the right to charge Bidder the applicable Buyer's Premium and consignor a Seller's Commission as determined for each auction venue and by the terms of the seller's agreement.
53. Acceptance of these Terms and Conditions qualifies Bidder as a client who has consented to be contacted by Heritage in the future. In conformity with "do-not-call" regulations promulgated by the Federal or State regulatory agencies, participation by the Bidder is affirmative consent to being contacted at the phone number shown in his application and this consent shall remain in effect until it is revoked in writing. Heritage may from time to time contact Bidder concerning sale, purchase, and auction opportunities available through Heritage and its affiliates and subsidiaries.
54. Rules of Construction: Auctioneer presents properties in a number of collectible fields, and as such, specific venues have promulgated supplemental Terms and Conditions. Nothing herein shall be construed to waive the general Terms and Conditions of Auction by these additional rules and shall be construed to give force and effect to the rules in their entirety.

# Terms and Conditions of Auction

## Additional Terms & Conditions:

### COINS & CURRENCY

COINS and CURRENCY TERM A: Signature. Auctions are not on approval. No certified material may be returned because of possible differences of opinion with respect to the grade offered by any third-party organization, dealer, or service. No guarantee of grade is offered for uncertified Property sold and subsequently submitted to a third-party grading service. There are absolutely no exceptions to this policy. Under extremely limited circumstances, (e.g. gross cataloging error) a purchaser, who did not bid from the floor, may request Auctioneer to evaluate voiding a sale: such request must be made in writing detailing the alleged gross error; submission of the lot to the Auctioneer must be pre-approved by the Auctioneer; and bidder must notify Ron Brackemyre (1-800-8726467 Ext. 1312) in writing of such request within three (3) days of the non-floor bidder's receipt of the lot. Any lot that is to be evaluated must be in our offices within 30 days after Auction. Grading or method of manufacture do not qualify for this evaluation process nor do such complaints constitute a basis to challenge the authenticity of a lot. AFTER THAT 30-DAY PERIOD, NO LOTS MAY BE RETURNED FOR REASONS OTHER THAN AUTHENTICITY. Lots returned must be housed intact in their original holder. No lots purchased by floor Bidders may be returned (including those Bidders acting as agents for others) except for authenticity. Late remittance for purchases may be considered just cause to revoke all return privileges.

COINS and CURRENCY TERM B: Auctions conducted solely on the Internet THREE (3) DAY RETURN POLICY: Certified Coin and Uncertified and Certified Currency lots paid for within seven days of the Auction closing are sold with a three (3) day return privilege. You may return lots under the following conditions: Within three days of receipt of the lot, you must first notify Auctioneer by contacting Client Service by phone (1-800-872-6467) or e-mail (Bid@HA.com), and immediately ship the lot(s) fully insured to the attention of Returns, Heritage, 3500 Maple Avenue, 17th Floor, Dallas TX 75219-3941. Lots must be housed intact in their original holder and condition. You are responsible for the insured, safe delivery of any lots. A non-negotiable return fee of 5% of the purchase price (\$10 per lot minimum) will be deducted from the refund for each returned lot or billed directly. Postage and handling fees are not refunded. After the three-day period (from receipt), no items may be returned for any reason. Late remittance for purchases revokes these Return privileges.

COINS and CURRENCY TERM C: Bidders who have inspected the lots prior to any Auction, or attended the Auction, or bid through an Agent, will not be granted any return privileges, except for reasons of authenticity.

COINS and CURRENCY TERM D: Coins sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for a guarantee by Auctioneer that they are genuine. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Numismatic Guaranty Corporation (NGC), P.O. Box 4776, Sarasota, FL 34230; Professional Coin Grading Service (PCGS), PO Box 9458, Newport Beach, CA 92658; ANACS, 6555 S. Kenton St. Ste. 303, Englewood, CO 80111; and Independent Coin Grading Co. (ICG), 7901 East Bellevue Ave., Suite 50, Englewood, CO 80111.

COINS and CURRENCY TERM E: Notes sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for guarantee by Auctioneer that they are genuine. Grading, condition or other attributes of any lot may have a material effect on its value, and the opinion of others, including third-party grading services such as PCGS Currency, PMG, and CGA may differ with that of Auctioneer. Auctioneer shall not be bound by any prior or subsequent opinion, determination, or certification by any grading service. Bidder specifically waives any claim to right of return of any item because of the opinion, determination, or certification, or lack thereof, by any grading service. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Paper Money Guaranty (PMG), PO Box 4711, Sarasota FL 34230; PCGS Currency, PO Box 9458, Newport Beach, CA 92658; Currency Grading & Authentication (CGA), PO Box 418, Three Bridges, NJ 08887. Third party graded notes are not returnable for any reason whatsoever.

COINS and CURRENCY TERM F: Since we cannot examine encapsulated coins or notes, they are sold "as is" without our grading opinion, and may not be returned for any reason. Auctioneer shall not be liable for any patent or latent defect or controversy pertaining to or arising from any encapsulated collectible. In any such instance, purchaser's remedy, if any, shall be solely against the service certifying the collectible.

COINS and CURRENCY TERM G: Due to changing grading standards over time, differing interpretations, and to possible mishandling of items by subsequent owners, Auctioneer reserves the right to grade items differently than shown on certificates from any grading service that accompany the items. Auctioneer also reserves the right to grade items differently than the grades shown in the prior catalog should such items be reconsigned to any future auction.

COINS and CURRENCY TERM H: Although consensus grading is employed by most grading services, it should be noted as aforesaid that grading is not an exact science. In fact, it is entirely possible that if a lot is broken out of a plastic holder and resubmitted to another grading service or even to the same lot service, the lot could come back with a different grade assigned.

COINS and CURRENCY TERM I: Certification does not guarantee protection against the normal risks associated with potentially volatile markets. The degree of liquidity for certified coins and collectibles will vary according to general market conditions and the particular lot involved. For some lots there may be no active market at all at certain points in time.

COINS and CURRENCY TERM J: All non-certified coins and currency are guaranteed genuine, but are not guaranteed as to grade, since grading is a matter of opinion, an art and not a science, and therefore the opinion rendered by the Auctioneer or any third party grading service may not agree with the opinion of others (including trained experts), and the same expert may not grade the same item with the same grade at two different times. Auctioneer has graded the non-certified numismatic items, in the Auctioneer's opinion, to their current interpretation of the American Numismatic Association's standards as of the date the catalog was prepared. There is no guarantee or warranty implied or expressed that the grading standards utilized by the Auctioneer will meet the standards of any grading service at any time in the future.

COINS and CURRENCY TERM K: Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

COINS and CURRENCY TERM L: Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

COINS and CURRENCY TERM M: NOTE: Purchasers of rare coins or currency through Heritage have available the option of arbitration by the Professional Numismatists Guild (PNG); if an election is not made within ten (10) days of an unresolved dispute, Auctioneer may elect either PNG or A.A.A. Arbitration.

COINS and CURRENCY TERM N: For more information regarding Canadian lots attributed to the Charlton reference guides, please contact: Charlton International, PO Box 820, Station Willowdale B, North York, Ontario M2K 2R1 Canada.

## Your five most effective bidding techniques:

### 1 Interactive Internet™ Proxy Bidding

(leave your maximum Bid at HA.com before the auction starts)

Heritage's exclusive Interactive Internet™ system is fun and easy! Before you start, you must register online at HA.com and obtain your Username and Password.

1. Login to the HA.com website, using your Username and Password.
2. Chose the specialty you're interested in at the top of the homepage (i.e. coins, currency, comics, movie posters, fine art, etc.).
3. Search or browse for the lots that interest you. Every auction has search features and a 'drop-down' menu list.
4. Select a lot by clicking on the link or the photo icon. Read the description, and view the full-color photography. Note that clicking on the image will enlarge the photo with amazing detail.
5. View the current opening bid. Below the lot description, note the historic pricing information to help you establish price levels. Clicking on a link will take you directly to our Permanent Auction Archives for more information and images.
6. If the current price is within your range, Bid! At the top of the lot page is a box containing the Current Bid and an entry box for your "Secret Maximum Bid" – the maximum amount you are willing to pay for the item before the Buyer's Premium is added. Click the button marked "Place Bid" (if you are not logged in, a login box will open first so you can enter your username (or e-mail address) and password).
7. After you are satisfied that all the information is correct, confirm your "Secret Maximum Bid" by clicking on the "Confirm Absentee Bid" button. You will receive immediate notification letting you know if you are now the top bidder, or if another bidder had previously bid higher than your amount. If you bid your maximum amount and someone has already bid higher, you will immediately know so you can concentrate on other lots.
8. Before the auction, if another bidder surpasses your "Secret Maximum Bid", you will be notified automatically by e-mail containing a link to review the lot and possibly bid higher.
9. Interactive Internet™ bidding closes at 10 P.M. Central Time the night before the session is offered in a floor event. Interactive Internet™ bidding closes two hours before live sessions where there is no floor bidding.
10. The Interactive Internet™ system generally opens the lot at the next increment above the second highest bid. As the high bidder, your "Secret Maximum Bid" will compete for you during the floor auction. Of course, it is possible in a Signature® or Grand Format live auction that you may be outbid on the floor or by a Heritage Live bidder after Internet bidding closes. Bid early, as the earliest bird wins in the event of a tie bid. For more information about bidding and bid increments, please see the section labeled "Bidding Increments" elsewhere in this catalog.
11. After the auction, you will be notified of your success. It's that easy!

You are currently the high bidder, but this does not guarantee that someone else may not outbid you before this auction closes. Our system will place bids on your behalf, using only as much of (but not more than) your secret maximum as is necessary to maintain your high bid position. If another bidder places a higher secret maximum than yours, you will be notified via e-mail that you have been outbid. There are no steps to remember your bid.

Use the Bid. You can easily reference every bid you have placed and monitor your bid status on every lot. You can also track bid on every item with a single click from the Multiple page.

If you are outbid, we will e-mail you as soon as we can.

Your secret maximum bid of \$0.00 on Lot #1010 in Auction #1110 has been outbid.

## 2 HERITAGE Live!™ Bidding (participate in the Live auction via the Internet)

1. Look on each auction's homepage to verify whether that auction is "HA.com/Live Enabled." All Signature® and Grand Format auctions use the HERITAGE Live!™ system, and many feature live audio and/or video. Determine your lots of interest and maximum bids.
2. Note on the auction's homepage the session dates and times (and especially time zones!) so you can plan your participation. You actually have two methods of using HERITAGE Live!™: a) you can leave a proxy bid through this system, much like the Interactive Internet™ (we recommend you do this before the session starts), or b) you can sit in front of your computer much as the audience is sitting in the auction room during the actual auction.
3. Login at HA.com/Live.
4. Until you become experienced (and this happens quickly!) you will want to login well before your lot comes up so you can watch the activity on other lots. It is as intuitive as participating in a live auction.
5. When your lot hits the auction block, you can continue to bid live against the floor and other live bidders by simply clicking the "Bid" button; the amount you are bidding is clearly displayed on the console.

## 3 Mail Bidding (deposit your maximum Bid with the U.S.P.S. well before the auction starts)

**Mail bidding at auction is fun and easy, but by eliminating the interactivity of our online systems, some of your bids may be outbid before you lick the stamp, and you will have no idea of your overall chances until the auction is over!**

1. Look through the printed catalog, and determine your lots of interest.
2. Research their market value by checking price lists and other price guidelines.
3. Fill out your bid sheet, entering your maximum bid on each lot. Bid using whole dollar amounts only. Verify your bids, because you are responsible for any errors you make! Please consult the Bidding Increments chart in the Terms & Conditions.
4. Please fill out your bid sheet completely! We also need: a) Your name and complete address for mailing invoices and lots; b) Your telephone number if any problems or changes arise; c) Your references; if you have not established credit with Heritage, you must send a 25% deposit, or list dealers with whom you have credit established; d) Total your bid sheet; add up all bids and list that total in the box; e) Sign your bid sheet, thereby agreeing to abide by the Terms & Conditions of Auction printed in the catalog.
5. Mail early, because preference is given to the first bid received in case of a tie.
6. When bidding by mail, you frequently purchase items at less than your maximum bid. Bidding generally opens at the next published increment above the second highest mail or Internet bid previously received; if additional floor, phone, or HERITAGE Live!™ bids are made, we act as your agent, bidding in increments over any additional bid until you win the lot or are outbid. For example, if you submitted a bid of \$750, and the second highest bid was \$375, bidding would start at \$400; if no other bids were placed, you would purchase the lot for \$400.
7. You can also Fax your Bid Sheet if time is short. Use our exclusive Fax Hotline: 214-443-8425.

## 4 Telephone Bidding (when you are traveling, or do not have access to HERITAGE Live!™)

1. To participate in an auction by telephone, you must make preliminary arrangements with Client Services (Toll Free 866-835-3243) at least three days before the auction.
2. We strongly recommend that you place preliminary bids by mail or Internet if you intend to participate by telephone. On many occasions, this dual approach has reduced disappointments due to telephone (cell) problems, unexpected travel, late night sessions, and time zone differences. Keep a list of your preliminary bids, and we will help you avoid bidding against yourself.

## 5 Attend in Person (whenever possible)

Auctions are fun, and we encourage you to attend as many as possible – although our HERITAGE Live!™ system brings all of the action right to your computer screen. Auction dates and session times are printed on the title page of each catalog, and appear on the homepage of each auction at HA.com. Join us if you can!

Take **4**  
Months to Pay...

Heritage will  
Finance Your  
Purchase

We're collectors too, and we understand that on occasion there is more to buy than there is cash. Consider Heritage's Extended Payment Plan [EPP] for your purchases totaling \$2,500 or more.

#### **Extended Payment Plan [EPP] Conditions**

- Minimum invoice total is \$2,500.
- Minimum Down Payment is 25% of the total invoice.
- A signed and returned EPP Agreement is required.
- The EPP is subject to a 3% *fully refundable* Set-up Fee (based on the total invoice amount) payable as part of the first monthly payment.
- The 3% Set-up Fee is refundable provided all monthly payments are made by eCheck, bank draft, personal check drawn on good funds, or cash; and if all such payments are made according to the EPP schedule.
- Monthly payments can be automatically processed with an eCheck, Visa, or MasterCard.
- You may take up to four equal monthly payments to pay the balance.
- Interest is calculated at only 1% per month on the unpaid balance.
- Your EPP must be kept current or additional interest may apply.
- There is no penalty for paying off early.
- Shipment will be made when final payment is received.
- All traditional auction and sales policies still apply.

**There is no return privilege once you have confirmed your sale, and penalties can be incurred on cancelled invoices. To avoid additional fees, you must make your down payment within 14 days of the auction. All material purchased under the EPP will be physically secured by Heritage until paid in full.**

To exercise the EPP option, please notify **Eric Thomas** at **214.409.1241** or email at **EricT@HA.com** upon receipt of your invoice.

We appreciate your business and wish you good luck with your bidding.
